

# COLLABORATION

Collaboration is paramount within the City of El Paso's organization. As a municipal entity, we are tasked with the responsibility of providing the best quality and most efficient services within available resources. We strive to provide our customers the very best value for their tax dollars. With this responsibility in mind, we collaborate to maximize positive outcomes for everyone involved and to foster those working relationships that allow us to get there.

Collaboration also means bringing in different points of view, perceptions, ideas and innovations to provide citizens with the best product possible. This opportunity to diversify our scope of services allows the City to further its mission to reach every person who has a stake in the efficient operation of the City – in short, the citizens of El Paso and the surrounding communities.
