El Paso, Texas. Oct 5/05

To the Hon. Mayor and City Council
of the City of El Paso.
Gentlemen—

Petition R.V. Bowden further time for Telephone Co.

On the 23rd day of April A.D. 1904 your honorable body passed an ordinance entitled "An Ordinance Granting unto R.V. Bowden a Franchise to Construct, Reconstruct, maintain and operate a Telephone System and Exchange in the City of El Paso," which said ordinance was by the undersigned accepted in accordance with the provisions thereof, by an instrument in writing bearing date 19th day of May A.D. 1904, which said ordinance is of record in the records of the City of El Paso, in Book U, at page 47 et seq, and by the terms of said ordinance said Bowden is required to construct said telephone system within one year from

Regular Meeting Thursday Oct 5/05

the passage of said ordinance.

That thereafter on the 23rd of March, 1905 your honorable body granted to the said Bowden an extension of six months time in which to construct said telephone system after the expiration of said one year in said ordinance limited preserving to said Bowden all his rights under said franchise which resolution is of record in Book N at Page 414 of the records of this council;

That at the time of granting said last named extension it was expected that the construction and installation of said telephone plant would be completed within said extension period, but owing to unavoidable delays, and particularly on account of the sickness of experts who were installing the automatic switchboard, the construction and installation of said plant has not yet been completed and cannot now be completed within said extension period of six months last granted.

That since the granting of said last named extension there has been expended upon the construction and installation of said telephone plant the sum of about $70,000, the automatic switchboard having been installed and completed on the 28th of Sept past.

All underground cable has been laid in the down town district and said plant might now be put into operation with 1000 to 1200 phones, but as the present outside wiring of the city is inadequate to supply the outlying districts crowded by rapid growth of the city, it has been thought best not to begin operations until the entire city can be supplied. The underground cable is adequate for that purpose but the lack of outside wiring as above stated is not and it will take time beyond the expiration of said six months extension to extend the outside wiring over the city sufficient to accommodate the entire city, and the undersigned therefore prays your honorable

Regular Meeting Thursday Oct 5/05

body to grant him a further period of six months in which to complete the construction and installation of said plant.

Respectfully submitted,

(Signed) R. V. Bowden,

On motion made and carried the above petition was granted by adopting the following resolution which accompanied and was made a part of same.

Be it Resolved by the City Council of the City of El Paso, as follows:

Whereas on the 23rd day of April A.D. 1904 this council adopted and enacted an ordinance which is of record in Book N on page 47 et seq. of the records of this city and is entitled "An ordinance granting unto R. V. Bowden, a franchise to construct, reconstruct, maintain, and operate a telephone plant and exchange in the city of El Paso; and, by the terms of said ordinance the said Bowden was required to construct and install said telephone plant within a period of one year from the date thereof; and,

Whereas by a resolution passed on the 23rd day of March 1905, the said R. V. Bowden was given an extension of a period of six months from the expiration of said year in which to construct and install said telephone plant; and,

Whereas since the said last extension was granted to said Bowden, he and his associates have expended upon the construction of said telephone plant a large sum of money, but said plant is not completed, and cannot be fully completed within said six month's extension period, and additional time is required for that purpose;

Said Bowden is hereby granted an extension of six months time in which to complete the construction and installation of said telephone system, from and after the period in said

Regular Meeting Thursday Oct 5/05

last named extension, limited, to wit; from and after the 23rd day of Oct A.D. 1905, and that all the rights, privileges and franchises to him in said ordinance and said extension period granted, shall be and continue in full force and effect during said additional extension period, the same as though said plant had been completed within the one year in said ordinance limited, or within said six months extension limit, and that the said ordinance and the contract made by said Bowden with the city pursuant thereto remain in all other respects unchanged.

Petition of H R Woods relating to Conduits on Arizona St

Chairman Fewel to whom was referred the petition of H. R. Woods recommended that it be received and filed, the petition reads as follows

To the Hon. Mayor and City Council
Gentlemen

I herewith call your attention to the plan under which has been constructed the two water Conduits and the grade on Arizona street, crossing Newman and, as the latter, has reference to the natural grade of the city.

The Construction of this work having been performed with out any authority from the City, and in the interests of private individuals with out any reference to the interests, or rights of others, I take this method of calling your attention to the conditions as they now exist and, as an owner of property which is being detrimentally affected through the fact of its present Construction, to appeal to you for relief from this imposition.

The grade mentioned is now so arranged, that the water flow from the hills to the north will be diverted from its natural Course and be forced to follow an unnatural Course from the street through lots not previously affected and much to their damage.

Upon examination, you will discover this grade on Arizona street so situated as to obstruct traffic on new man and one of the conduits so constructed as to throw the water directly on and through the lots to the south on to Montana street.

I am informed by your engineer, and from personal examination, that the grade mentioned is incorrect and at variance with the general Condition of Things

With the above explanation, I herewith petition your honorable body to have this matter referred to its proper Course for Correction.—

Very respectfully

H. R. Woods

Petition L S Petross reduction of taxes

Chairman Hammett to whom was referred the following petition recommended that it be denied

El Paso, Tex. Oct. 2nd 1905.

To the Honorable Mayor + City Council
of the City of El Paso.

Gentlemen,

I have lately learned of the following taxes and penalties which have been assessed against lot 11 and west 10 feet of lot 10, block 8 in the Highland Park Addition, together with improvements thereon,—

Taxes for the year 1904	$21.50
Penalty and interest and fees	2.75—
Total	$24.25

Being the owner of the property above men-

Regular Meeting Thursday Oct 19th 1905

tioned, I most respectfully petition your Honorable Body to rebate the taxes and penalties for the year 1904, as above stated, for the following reasons;

First. Mr Duncan Campbell, from whom I purchased the real estate, has already paid the real estate taxes thereon, for the year 1904. This can be verified by reference to the tax records, and will be substantiated by Mr Campbell.

Second. No improvements were placed upon the said land until after the first of January 1904;— in fact, it was not until considerable time after that date that any improvements were begun, and the house was not ready for occupancy until some time during the second half of February.

In view of these facts, it seems to me that a grave injustice would be done to me if I were required to pay either the penalties or the taxes above mentioned, and I trust that my petition will be given favorable action on your part. Both Mr C. M. Newman and Mr Duncan Campbell will verify the statements I have made.

Respectfully submitted

Lee S. Petross.

The resolution above referred to is in words and figures as follows to wit:

Whereas the City Council of the City of El Paso has diligently inquired into and investigated the charge that an alderman of the city of El Paso received a commission of fifteen hundred dollars, or any other sum, for making the sale to the City of the block of ground for a public park, known as block 259 of Campbell's Addition to the City and

Whereas, this Council has found not the slightest evidence to support said charge, but on the other hand, this Council is convinced that said charge is wholly false and without any foundation in fact, and

Whereas this Council favors the utmost publicity in the transaction of public business and welcomes and challenges at any time the fullest and freest investigation of any and all of the official acts of this Council or any of its members, yet it reprobates charges of this nature when unsupported by evidence as both cowardly and unjust;
