Henry K. Ng, P.E.

Position: President, Henry K. Ng & Associates

Education: B.S., Civil Engineering (honors), University of Texas @ El Paso
M.S., Civil Engineering, University of Texas @ El Paso

Professional Registration: Texas, New Mexico, Georgia, Florida, Arkansas and Arizona

Professional Experience:

Henry Ng has over 30 years of design experience in the field of structural engineering. After his graduation from college, Mr. Ng began his professional career with an El Paso based Design-Build construction firm that specialized in post-tensioned concrete structures. During the 8 ½ years that he worked with this firm, Mr. Ng did not only gain substantial experience in design, but had also learned first hand the importance of team concept to the success of any construction projects. In addition to his capacity as a design engineer, Mr. Ng also worked extensively at the construction sites, building many of the projects that he had designed.

In February 1987, Mr. Ng started his consulting firm, specializing in his major field of structural engineering. In the last twenty-one years, Henry K. Ng & Associates has become recognized as one of the most respected engineering firms in El Paso, gaining recognition in the southwest United States and all over Mexico, having completed a wide variety of commercial, industrial, educational as well as institutional projects. In addition to serving many of the local architectural firms, Mr. Ng has been retained by the cities of El Paso, Las Cruces and Alamogordo, and several independent school districts as their prime structural engineer on some of the most challenging projects, such as the restoration of the El Paso Civil Center Plaza/Parking Garage and Police Downtown Parking Garage, and the District-wide Foundation Repairs of the El Paso Independent School District.

Other projects that Mr. Ng has completed included more than 100 high schools, middle schools and elementary schools, Bien Vivir Health Care for the Elderly, Helen of Troy Corporate Headquarters, Health Science Building of El Paso Community College, the Health Science Building of the American University of Les Cayes in Haiti, Mission Valley Regional Police Command Center, and many multi-million sf industrial parks in El Paso, Santa Teresa, San Antonio, Houston, Laredo, McAllen, Phoenix and all over Mexico.

Today, Mr. Ng is responsible for the structural designs of building projects with a construction cost of over $ 200 million annually. Some of the current projects include the Women's and Children's Hospital at Thomason, Science Laboratory Building and the Nursing School at the University of Texas @ El Paso.

Professional/Civic Affiliations:

Alumni Academy of Civil Engineers of UTEP (past president)
