# CITY OF EL PASO, TEXAS
# AGENDA ITEM
# DEPARTMENT HEAD'S SUMMARY FORM

**DEPARTMENT:** **Police**

**AGENDA DATE:** **December 21, 2010**

**CONTACT PERSON/PHONE:** **Eric Shelton – Assistant Chief of Police (915) 564-7309**
**Bruce Collins – Purchasing Manager (915) 541-4313**

**DISTRICT(S) AFFECTED:** **All**

**SUBJECT:**

Request that the Purchasing Manager for Financial Services, Purchasing Division be authorized to issue a purchase order to Hagemeyer North America, a contractor under U.S. Communities Cooperative Purchasing Alliance, Contract #RQ-06-814063-10A in the total estimated amount of $147,225.00 for 75 Multi-Threat Suits, 75 Training Suits and 75 Kit Bags.

**BACKGROUND / DISCUSSION:**

Currently, El Paso Police Tactical Team officers do not have a multi-threat ChemBio protective tactical suit that can be used in the hot zones of a ChemBio incident. This equipment is necessary to minimize the exposure to the Officer responding to these types of incidents; this equipment will be used when responding to such incidents as SWAT and/or High Risk.

**PRIOR COUNCIL ACTION:**

Funds were identified for this purpose as part of an Urban Area Security Initiative (UASI-IED 2008) Program under the Office of the Governor Division of Emergency Management.

**AMOUNT AND SOURCE OF FUNDING:**

Re: HAGEMEYER NORTH AMERICA, Blauer Multi Threat Suits, Train Suits and Kit bags for Special Teams

---

*1. Is there an urgent need for the product/service? In other words, is time of the essence?*
Yes, currently the Special Teams officers do not have a multi-threat ChemBio protective tactical suit that can be used in the hot zone during this type of incident. The Swat Team is using outdated military MOP suits, the Bomb Squad is using level A type fully encapsulated suits similar to HazMat suits and CMT does not have any suits but the Tyvex type splash suits which are not safe to use in the hot zone. Right now the teams would not be able to tactically respond in the hot zone of a ChemBio incident without placing officers at risk to exposure.

*2. Does the purchase through the Program promote the standardization of equipment?*
Yes, all officers in Special Teams would have the same level of protection with these suits and are interchangeable should the need arise. These suits can be used in a tactical and explosive environment during a prolonged ChemBio incident by allowing the officers the protection and added cooling ability with a versatile mobility capability not currently available to the teams.

*3. Does the purchase through the Program support local business? If not, is there a comparable product/service available locally?*
No, these suits are only made specifically by Blauer and not available locally. The Department is using HAGEMEYER North America's on US Communities contract # RQ-06-814063-10A.

*4. Do the available vendors have prior work experience and/or familiarity with the City?*
Yes, due to the US Communities contract, HAGEMEYER North America has dealt with the City in the past and is familiar with the purchasing process.

*5. Is the pricing reasonable as compared to other similar products/work performed for the City of El Paso in the past or as quoted from other companies?*
The participation by the City of El Paso in the US Communities Cooperative Purchasing Alliance was approved by Mayor and City Council on February 27, 2007. The City has made the determination that purchasing from this cooperative offers the most cost-effective pricing. This purchase is being funding by the UASI-IED Response Grant G220918.
