**PLANNING & INSPECTIONS DEPARTMENT

MEMORANDUM
August 14, 2014

TO: The Honorable Chairman and Board Members

THROUGH: Victor Morrison-Vega, Deputy Director, City Development Department

FROM: Ron Roth, C.B.O., Deputy Building Official

SUBJECT: 2316 Wyoming Ave., El Paso, TX 79902

The following is a brief chronology of the investigation of the referenced location:

- 1) First investigated on or about February 27, 2015. Recently inspected on March 4, 11, 31, June 25, and August 19, 2015. The single family home was built on or about 1949 with additional structures built to the south side of the property at a later unknown date, all structures were later converted into a total of 6 apartments plus an additional two recreational vehicles rented out as dwellings. Due to illegal connections and disbursement of electrical supply and gas fuel throughout the apartments, an imminent danger to all the occupants and their guests was created. As a result the main structure was involved in an electrical fire on February 22, 2015 in which all the tenants had to be relocated. Upon follow up inspections to the site conducted on April 11, 2015 and June 25, 2015, I found unlicensed individuals doing work without the required permits. The floor joists are unevenly settling and the load bearing brick walls are step cracking, showing evident signs of foundation failure. The property currently contains, trash, and demolition debris.
- 2) A certified condemnation letter was mailed to the owner Jesus G. Garcia
- 3) Certified notices of the public hearing scheduled for August 26, 2015 were mailed to the owner and all interested parties on August 05, 2015.
- 4) As of August 13, 2015, \$635.72 is owed in taxes.

The owner has been notified of the property violations at this property. To date there has been little or no response or corrective action taken, and therefore the Department recommends that it be found:

- 1) That the structures are substandard and unfit for habitation or use and a hazard to the public health, safety, and welfare; and
- 2) That the structures are not in substantial compliance with the municipal ordinances regulating structural or service systems integrity, fire protection and disposal of refuse; and
- 3) That the structure's Certificate of Occupancy be revoked; and
- 4) That the structures cannot be rehabilitated; and
- 5) That the structures be demolished within thirty (30) days; and
- 6) That the premises be cleaned of all weeds, trash, and debris within thirty (30) days and maintained clean thereafter; and
- 7) That upon failure by the owners or any other interested party to comply with the order of the Building and Standards Commission, the City may take whatever action is necessary to bring the property into compliance, and place a lien on the property for the work which will be done by the City, to include demolition.

- 5) **REMARKS:** First investigated on or about February 22, 2015. Recently inspected on March 4, 11, 31, June 25, and August 19, 2015. The single family home was built on or about 1949 with additional structures built to the south side of the property at a later unknown date, all structures were later converted into a total of 6 apartments plus an additional two recreational vehicles rented out as dwellings. Due to illegal connections and disbursement of electrical supply and gas fuel throughout the apartments, an imminent danger to all the occupants and their guests was created. As a result the main structure was involved in an electrical fire on February 22, 2015 in which all the tenants had to be relocated. Upon follow up inspections to the site conducted on April 11, 2015 and June 25, 2015, I found unlicensed individuals doing work without the required permits. The floor joists are unevenly settling and the load bearing brick walls are step cracking, showing evident signs of foundation failure. The property currently contains, trash, and demolition debris.
