SURROUNDING ZONING AND LAND USE

North: C-3/sc (Commercial/special contract) / Vacant, R-3 (Residential) / Single-family homes
South: C-4/sc (Commercial/special contract) / Vacant
East: R-3 (Residential) / Single-family homes
West: C-4/sc (Commercial/special contract) / Vacant

PLAN EL PASO DESIGNATION: G4, Suburban (Walkable)

APPLICATION DESCRIPTION

The applicant proposes to subdivide 16.174 acres of vacant land into two (2) lots. Restrictive covenants limit the total number of apartment units that will occupy Lot 2 (14.847 acres) to 240 units, while Lot 1 will remain an improved slope (1.327 acres). Access to the subdivision will be primarily from Resler Drive and Desert Pass Street, which was previously approved as Desert Pass Subdivision Unit 1. This subdivision was reviewed under the current Subdivision Code, in conjunction with Desert Pass Subdivision Phasing Plan.

DEVELOPMENT COORDINATING COMMITTEE

The Development Coordinating Committee recommends **approval** of Desert Pass Unit 2 on a Major Final basis.

Planning Division Recommendation:

Staff recommends **approval** of Desert Pass Unit 2 on a Major Final basis with the following condition:

The recording of Desert Pass Unit #2 will be subject to final approval of Desert Pass Unit #3.

Planning and Inspections Department - Land Development

We have reviewed subject plats and recommend **Approval**.

Parks and Recreation Department

We have reviewed **Desert Pass Subdivision Unit 2**, a major final plat map and offer Engineer / Developer the following **“revised”** comments:

Please note that this subdivision is part of the "Desert Pass Drive Subd." originally submitted as a preliminary plat (Total of 77.40 acres) on June 09, 2011 where Developer was proposing different uses for this development as commercial, offices, open space areas and 28 plus acres for Multi-family dwelling units therefore, we provide the following comments:

1. For this subdivision (Desert Pass #2) applicant has submitted preliminary covenants restricting the use to Multi-family dwellings use with a maximum of 240 units therefore, Parks Department recommends approval subject to the following:

- a) A one half (1/2) acre “Park” needs to be dedicated to the City of El Paso with-in the limits of the original "Desert Pass Drive Subd." preliminary plat;
- b) Applicant has submitted a 5-Day plat application for “Desert Pass #3” subdivision which includes the required one half (1/2) acre “Park” – This plat needs to run and or be approved prior to or concurrently with “Desert Pass #2” subdivision.
- c) Park fees in the amount of **\$95,200.00** shall be paid for the remainder number of dwelling units calculated as follows:

Original Plat is proposing 240 Multi-family dwelling Units at a rate of one acre per every 200
 Units requires 1.2 Acres of Parkland
 Desert Pass #3 is dedicating 0.50 acre of Parkland

Parkland Balance = 0.70 acres

Parkland Balance of 0.70 acres (x) 200 Units per acre = 140 Dwelling Units
 140 Dwelling Units at a rate of \$680.00 per dwelling unit = **\$95,200.00**

2. All areas meant to remain undisturbed (according to preliminary plat) or where existing ground is disturbed by cut or fill methods must be restored by introduction of vegetation and irrigation system.

Please allocate generated funds under Park Zone: **NW-5**

Nearest Parks: **H.T. Ponsford** & **Paul Harvey**

El Paso Water Utilities

We have reviewed the above referenced subdivision and provide the following comments:

1. EPWU-PSB does not object to this request.
2. The Owner/Developer of Desert Pass Unit 1 has entered into a Development Agreement with the El Paso Water Utilities – Public Service Board (EPWU-PSB) to construct an 8-inch diameter water main along Desert Pass St. and an 8-inch diameter sewer main along a portion of Desert Pass St., south of the 20-ft drainage easement. These mains will be available for service after EPWU issues final acceptance.

Water:

3. An 8-inch diameter water main is being constructed along Desert Pass Street approximately 10-ft east from the center line of the right-of-way, under Desert Pass Unit 1 Development Agreement. The main will be available for service after EPWU issues final acceptance.
4. The subdivision is anticipated to be located within an intermediate pressure zone. Pressure reducing and pressure relief valves will be required within the water distribution system. In addition, private water pressure regulating devices will be required at the discharge side of each water meter. The Owner/Developer shall include in the sale of contract documents that the lot buyer shall acquire ownership of the above-described water pressure regulating devices to be located at the discharge side of the water meters.

Sewer:

5. There is an existing 12/15-inch diameter sanitary sewer main located within the existing 30-foot wide PSB Easement that extends along a portion of the proposed Desert Pass Drive. This main is available for service.
6. An 8-inch diameter sanitary sewer main is being constructed along Desert Pass Street under Desert Pass Unit 1 Development Agreement. Said main extends 860 feet south of a manhole located approximately 1746-ft south of Gem Street and is located approximately 5-ft west from the center line of the right-of-way. The line will be available for service after EPWU issues final acceptance.

General:

7. During the site improvement work, the Owner/Developer shall safeguard the existing sanitary sewer main and appurtenant structures. The Owner/Developer shall minimize changes in grade above or near the vicinity of the existing PSB facilities and is responsible for the cost of setting appurtenant structures to final grade.
8. EPWU requires a new service application to serve the subject property. New service applications are available at 1154 Hawkins, 3rd Floor. The following items are required at the time of application: (1) hard copy of subdivision plat with street names and addresses; (2) finalized set of street improvement plans, including storm sewer; (3) digital copy of subdivision plat; (4) benchmark check; and (5) construction schedule. Service will be provided in accordance with the current EPWU – PSB Rules and Regulations. The owner is responsible for the costs of any necessary on-site and off-site extensions, relocations or adjustments of water and sanitary

sewer lines and appurtenances.

Additional Requirements and General Comments:

1. Submit to the Planning and Inspections Department – Planning Division the following prior to recording of the subdivision.
 - a. Current certified tax certificate(s)
 - b. Current proof of ownership
 - c. Release of access document, if applicable
 - d. Set of restrictive covenants, if applicable
2. Every subdivision shall provide for postal delivery service. The subdivider shall coordinate the installation and construction with the United States Postal Service in determining the type of delivery service for the proposed subdivision. In all cases, the type and location of delivery service shall be subject to the approval of the United States Postal Service.
