ACTION: Motion made by Commissioner Nance, seconded by Commissioner De La Cruz, and unanimously carried to nominate Commissioner Wright as 1st Chair of the City Plan Commission.

Motion passed.

ACTION: Motion made by Commissioner De La Cruz, seconded by Commissioner De La Cruz, seconded by Commissioner Wright, and unanimously carried to nominate Commissioner Brandrup as 2nd Chair of the City Plan Commission.

Motion passed.

Commissioner Nance assumed control of the meeting.

- b. Appointment of Sub-Committees

ACTION: Motion made by Commissioner Wright, seconded by Commissioner De La Cruz, and unanimously carried to **POSTPONE THIS ITEM TO THE CITY PLAN COMMISSION MEETING OF JANUARY 26, 2012.**

Motion passed.

- c. CPC Agenda Order of Business

Commissioner Nance requested that when two items are to be heard together that they be grouped to make it easier to follow.

- d. Quarterly Training Sessions

It was suggested that training sessions be placed on video stream or You-Tube so that the Commissioners can watch it at their leisure before coming to the meetings and this will give them the opportunity to prepare any questions they have. This will also help in making this information available to the public.

Staff will look at options and report back to the Commission.

5. Park Fees Special Fund Report – Parks and Recreation Department.

Leonor Wilson, Business Finance Manager, on behalf of Nanette Smejkal, Director for Parks and Recreation, gave a brief summary of park fees collected. She also went over a memo prepared by Ms. Smejkal outlining some of the projects that are underway in FY12 including completing proportional investments (primary playgrounds). She discussed parkland fees in lieu of parkland dedications. She noted that \$5,095,891.36 have been collected in fees.

She specified that Attachment "B" shows everything budgeted by parks.

The Commission asked that the Parks and Recreation Department bring back the following information at the next City Plan Commission meeting.

- The development cost for a park
- Park ponds acquired in 2011, and
- How much of that acreage has Improvements on it as opposed to just open space.

Richard Garcia with Parks and Recreation Department responded that the total cost for developing a park varies depending on the amenities, utilities, and irrigation installation and grading.

THIS ITEM WAS POSTPONED TO THE CITY PLAN COMMISSION MEETING OF JANUARY 26, 2012.

-
6. 2011 Activity Report, Planning & Economic Development Department.
Mathew McElroy, Deputy Director, Planning & Economic Development Department, (915) 541-4193 mcelroymx@elpasotexas.gov

Philip Etiwe, Development Review Manager, gave a brief summary of the 2011 Activity Report including Zoning, Sub-Division, Long Range, and Historical Applications.

The Commission requested that a copy of this report be sent to them.

-
7. Annual Report by City Plan Commissioners to City Council.

Lupe Cuellar, Assistant City Attorney, noted that the report presented by Mr. Etiwe needs to be presented as back-up to City Council. Anything that City Council recommended be sent to the Commission for their review for a recommendation, the Commission needs to provide that information back to City Council. In addition to that, the Commission needs to send City Council any recommendations for general improvements for the City.

Because the requirements for the developers to make a park pond are so stringent, the City Attorney suggested that the Commission suggest to City Council to consider changing the code requirements regarding park ponds, making it easier for developers.

Commissioner Wright requested that the City Ombudsmen or Advocate help the developer through the development process.

Commission Brandrup noted that she had come across the January 2007 Green Infrastructure Plan in reference to the specific goals and timelines, monetary amounts, and priority listing and feels there is information for the Subdivision Code and improvements that relate to park pond issues, arroyo issues, that relate to clarifying development issues in the community that need to be addressed. She requested a report and would like to know who is monitoring the situation and if it is integrated into the Master Plan.

Commissioner Landeros asked if City Council would consider a specific project that is smart growth oriented included in the Quality of Life Bond. It could be brought up to the voters and see if the voters would consider supporting such a project. Depending on its success, maybe that project can serve as a catalyst for private developers to start to use the code and we can start to see the curtailing of urban sprawl in the fringe of the city. He suggested that it be recommended to City Council that they provide some sort of incentive for smart growth development on the east side of the city.

Ms. Cuellar will take comments made at this meeting, draft a report to City Council, bring that draft back to the Commission for their review and finally have the Commission approve it.

The Commission requested Legal to look into the annexation path.

Commissioner Landeros feels it is important for the City to continue to reach out to the County Planning Department and see if there could be any coordination to help support the implementation of a building code in rural areas. He suggested that the City work with the County in the coming years and hopefully prepare for a Commissioners Court that would support these building codes and provide any supporting guidance to the City Planning Department.

Commissioner Borden requested a copy of the Minority Reports sent to City Council along with the Activity Report presented by Mr. Etiwe at the meeting.

.....

- 8. Legal Report, City Attorney's Office.
 - a. Open Meetings Act

Lupe Cuellar, Assistant City Attorney, noted that every Commissioner should have already gone through the Open Meetings training and commended them for ensuring compliance with these requirements.

- b. Ethics

Ms. Cuellar referred the Commission to Chapter 1.71 of the Local Government Code and Ordinance Section 2.92 of the City Code. She noted that these are new provisions that apply to the Commission. She noted that she is always available to provide legal guidance to the Commission anytime they have a question or an issue of which they are not sure whether or not they need to abstain on a specific agenda item.

- c. Legal issues related to zoning and plats

She noted that if the plats comply with the code the Commission has to approve it. In granting a modification, there are certain findings that the Commission has to make and staff requires that it be in conformance with the Comprehensive Plan. The Commission should not approve a rezoning case if it is not in conformance with the Comprehensive Plan. She noted that the only times the Commission can place conditions on rezoning cases is if it is directly necessary and attributable to the change in zoning to the increase intensity that new change in zoning is going to create for the surrounding property. She briefly discussed Chapter 245 of the Local Government Code. She spoke about vesting and noted that if nothing is done on that property for five years then the property loses its vesting. Another way that it will lose its vesting is if it is no longer the same project.
