**NEIGHBORHOOD INPUT**

Notice of a Public Hearing was mailed to all property owners within 300 feet of the subject property on January 8, 2014. The Planning Division has received one phone call in opposition to the rezoning request, citing issues with any type of development and would prefer instead a park or recreation facility. Planning Division also received opposition from Mr. Mendoza a resident within the area of the rezoning request.

**APPLICATION DESCRIPTION**

The applicant is requesting to rezone the subject property from A-4/sp (Apartment/special permit) to S-D (Special Development) to allow for a mix of retail and office uses. The A-4/sp (Apartment/special permit) district does not permit retail use. There is a special permit on the subject property to allow for office and business uses, however not retail use. The subject property is 1.21 acres in size and is currently vacant. Section 20.10.360, Mixed-Use Development, requires the submittal and review of a detailed site development plan on the S-D (Special Development) district prior to the issuance of any building permits.

The applicant has been advised of the requirement and opted to submit the required detailed site development plan after review and approval of the rezoning application and prior to the submittal of any building permits. The concept plan submitted for this request does not meet all the requirements of a detailed site development plan; however, it meets or satisfies the rezoning application requirements. Access to the subject property is proposed from Yandell Boulevard and Prospect Avenue.

### **PLANNING DIVISION RECOMMENDATION**

The Planning Division recommends **approval** of rezoning the subject property from A-4/sp (Apartment/special permit) to S-D (Special Development).

The recommendation is based on the compatibility of existing residential and commercial uses and zone districts adjacent to the subject property. The S-D (Special Development) district complies with Plan El Paso Land Use Map G-2 – Traditional Neighborhood designation in the Northwest Planning Area.

### **Plan El Paso- Future Land Use Map Designation**

All applications for rezoning shall demonstrate compliance with the following criteria:

G-2 – Traditional Neighborhood: This sector includes the remainder of central El Paso as it existed through World War II. Blocks are small and usually have rear alleys; buildings directly face streets; schools, parks, and small shops are integrated with residential areas. This sector is well-suited for use of the Smart Code as a replacement for current zoning when planned in conjunction with specific neighborhood plans or identified in this Comprehensive Plan.

The purpose of the S-D (Special Development) district is to provide an opportunity for mixed-use projects, integrated in design, in certain older residential areas where there is a desire to permit a variety of nonresidential uses while maintaining the established residential appearance and landscaping of the area. The regulations of this district are designed to ensure compatibility with existing uses in the district; to permit the production, exhibit or sale of goods and the providing of services to the public in such older residential areas; to protect the traffic capacity of streets serving such older residential areas; to encourage flexibility by prescribing general performance standards for such older residential areas; and to protect the environment of adjacent areas. For the purpose of this district, older areas of the city shall be deemed those areas where development has existed for at least twenty-five years.
