He noted that on May 12, 2009, the City Council passed Ordinance number 017113 adopting impact Fees for water and wastewater facilities.

In accordance with Chapter 395 of the Texas Local Government Code, the city must update its land use assumptions and capital improvements plan at least every five years. The initial five-year period began on the day the City Council adopted the capital improvements plan on March 24, 2009. As part of this periodic update, the City is required to hold multiple public hearings and allow ample time and the opportunity for public comment and participation.

He spoke about the ten year growth projection and gave a brief summary that compares the original work done by Half & Associates and Red Oak Consulting to today's estimates based on the new information.
