Kimberly Forsyth, Lead Planner, noted that the conditions that are being imposed as part of the vacation include pedestrian and emergency easements over the entire property to be vacated. The Fire Department has been coordinating with the applicant and the applicant is willing to allow for emergency access. There is also an agreement with the Plaza Theater to allow the Plaza Theater to use this area exclusively for up to 10 days out of the year. This is separate and apart from the events that will take place that will be open to the public.

Brent Harris, President of Mills Plaza Promenade, LLC, concurred with staff's comments.

Commissioner Nance asked if there was anyone in the public who wished to speak in favor or against this request.

Elma Carreto spoke against this request and expressed concern that this will moving from public to private. She recommended that a traffic impact study not be waived on item 11. On item 14 she noted that not having rear access to the Camino Real Hotel hurts the whole downtown. She also requested a detailed site review just to be certain that the trees and landscaping would not interrupt the flow of the pedestrians.

Kimberly Forsyth noted that anything that the Commission makes in a form of a recommendation will be reviewed by City Council. The Commission can add conditions as they see appropriate. The code gives the City Manager or designee the authority to waive the traffic study, if certain conditions are met. She noted that the applicant submitted their request which was reviewed by DOT which agrees that those conditions were met and therefore the traffic impact study was waived.
