**NEAREST SCHOOL:** Pasodale Elementary School (3,522 feet)

**NEIGHBORHOOD ASSOCIATIONS**

Save the Valley 21  
Mission Valley Civic Association

**NEIGHBORHOOD INPUT**

Notice of a Public Hearing was mailed to all property owners within 300 feet of the subject property on February 24, 2015. The Planning Division received two letters in opposition to the rezoning request.

**APPLICATION DESCRIPTION**

The property owner is requesting a rezoning from R-4 (Residential) to A-2 (Apartment) to permit the construction of an 8 two-bedroom unit apartment complex totaling 2,912 sq. ft. The property is currently vacant. Sixteen parking spaces are required and 16 are proposed, to include ADA and bicycle parking. The proposed development requires 2,682 sq. ft. of landscaping and proposes 2,908 sq. ft. Furthermore, the development complies with the 50 percent open space requirement for the A-2 (Apartment) zoning district, proposing 10,827 sq. ft. of non-hardscape area. Access is proposed from Carpenter Drive.

**Planning and Inspections Department – Planning Division Recommendation**

The Planning Division recommends **approval** of rezoning the subject property from R-4 (Residential) to A-2 (Apartment). The proposed zoning district is consistent with other apartment zoning districts in immediate proximity to the subject property. Furthermore, the proposed development is compliant with the G-3 Post-War land use designation in the Mission Valley Planning Area.

### **Plan El Paso-Future Land Use Map Designation**

All applications for special permit shall demonstrate compliance with the following criteria:

G-3 – Post War: This sector applies to transitional neighborhoods typically developed from the 1950s through the 1980s. Streets were laid out with curvilinear patterns without alleys and shopping centers are located at major intersections behind large parking lots. This sector is generally stable but would benefit from strategic suburban retrofits to supplement the limited housing stock and add missing civic and commercial uses.

The purpose of the A-2 (Apartment) district is to provide a medium densities of dwelling units supported by higher intensity land uses located at the periphery of single-family neighborhoods providing that the overall character and architectural integrity of the neighborhood is preserved. Permits building types designed for transition from areas of low density residential neighborhoods to other residential areas, and certain non-residential uses and support facilities.

### **COMMENTS:**

#### **Planning and Inspections Department – Planning Division - Transportation**

No objections.

Note: All existing / proposed paths of travel (accessible sidewalks, wheelchair access curb ramps and driveways) within public rights-of-way shall be in compliance with current ADA/TAS rules and regulations and the current City of El Paso Design Standards for Construction.

#### **Planning and Inspections Department - Land Development**

No objection.

#### **Planning and Inspections Department – Plan Review**

No objections to proposed rezoning. At the time of submittal for building permits the project will need to comply with all applicable provisions of the IBC, TAS and local municipal code.

#### **Planning and Inspections Department - Landscaping**

No objection. At the time of submittal for building permits project will need to comply with all provisions of title 18.46 as applicable.

#### **El Paso Fire Department**

Rezoning request does not adversely affect the fire department.

#### **El Paso Water Utilities**

EPWU does not object to this request.

#### **Water:**

1. There is an existing 6-inch diameter water main extending along Carpenter Drive, the water main is located approximately 10-ft east from the right-of-way line. This water main is available for service.
2. Previous water pressure tests from fire hydrant # 4581 located at the northwest corner the subject property of have yielded a static pressure of 104 (psi) pounds per square inch, a residual pressure of 82 (psi) pounds per square inch, and a discharge of 978 (gpm) gallons per minute. The owner should, for his own protection and at his own expense, install at the discharge side of each water meter a pressure regulator, strainer and relief valve, to be set for pressure as desired by the customer. The Lot owner shall be responsible for the operation and maintenance of the above-described water pressure regulating device.

#### **Sewer:**

There is an existing 8-inch diameter sanitary sewer main extending along Carpenter Drive, the sewer main is located approximately 10-ft west from the right-of-way line. This sewer main is available for service.

#### **General:**

EPWU requires a new service application to provide service to the property. New service applications are available at 1154 Hawkins, 3rd floor and should be made 6 to 8 weeks in advance of construction to ensure

water for construction work. A site plan, utility plan, grading and drainage plans, landscaping plan, the legal description of the property and a certificate-of-compliance are required at the time of application. Service will be provided in accordance with the current EPWU – PSB Rules and Regulations. The applicant is responsible for the costs of any necessary on-site and off-site extensions, relocations or adjustments of water and sanitary sewer lines and appurtenances.
