North: R-3 (Residential)/Single Family Residential, C-3/c (Commercial/condition) /
Commercial Development

South: M-1 (Manufacturing)/ Manufacturing Development

East: M-1 (Manufacturing)/ Manufacturing Development

West: R-3 (Residential)/Single Family Residential

THE PLAN FOR EL PASO DESIGNATION: G3, Post-War

APPLICATION DESCRIPTION

The applicant is proposing 2 commercial lots. The smallest lot measures 10.3 acres in size and the largest lot measures 35.247 acres in size. The applicant is also proposing a ponding area measuring 3.138 acres in size. Primary access will be from Montoya Lane. Montoya Lane is a collector on the MTP. Applicant shall improve Montoya in accordance with the Traffic Impact Analysis.

This application has been granted vested rights making the development subject to the subdivision standards in effect prior to June 1, 2008.

DEVELOPMENT COORDINATING COMMITTEE

The Development Coordinating Committee recommends **pending** of West Desert Market Place on a **Major Combination Subdivision** basis subject to the following conditions and requirements:

City Development- Land Development:

Denial pending revisions to plat. Dedication statement may need to be modified to delete and/or include the items as applicable. (Pond must be labeled as a “Private Pond.”) Maintenance agreement is required between property owners to direct runoff from lot 1, lot 2 and lot 3.

City Development - Planning:

Pending revisions to plat.

City Development -Transportation:

Approval subject to revisions for street rights-of-way in accordance to City of El Paso Design Standard for Construction.

City of El Paso Department of Transportation:

EPDOT recommends denial pending revisions to the TIA.

Parks and Recreation Department:

Pending. Restrictive covenants to be submitted for gross density waiver.

EPWU-PSB Comments

We have reviewed the subdivision referenced above and provide the following comments:

1. The 30’ drainage easement shall be labeled Drainage and PSB easement.
2. A 25’ wide by 200’ long PSB easement will be required at the northeastern corner of the subject subdivision to accommodate the 48-inch diameter water main relocation that is required to achieve EPWU’s standards for pipeline cover due to the extension of Montoya Road and the proposed grades.
3. A 20’ wide PSB easement will be required to be extended south of the proposed 30’ wide PSB and Drainage easement and along the southern boundary line to accommodate a 12-inch water main extension.
4. EPWU does not object to the proposed vacation of Edgar Road since the existing sewer main within the right-of-way will be relocated to the proposed 20-foot wide easement located on the southern portion of the property

Water:

5. There is an existing 48-inch diameter transmission main located along Desert Boulevard South fronting the subject property. No direct service connections are allowed to this main as per the El Paso Water Utilities – Public Service Board Rules and Regulations.

6. There is an existing 8-inch diameter water main along Montoya Lane that dead-ends at the western property line of the subject subdivision. A water main extension along the entire Montoya Lane frontage will be required. Additionally, a 12-inch diameter water main is required to be extended within the subdivision along a dedicated easement from Montoya Lane to the southern boundary line of the subdivision.

7. The subdivision is anticipated to be located within an intermediate pressure zone. Pressure reducing and pressure relief valves will be required within the water distribution system. In addition, private water pressure regulating devices will be required at the discharge side of each water meter within the subdivision.

Sewer:

8. There is an existing 12-inch diameter sanitary sewer main located along Edgar Road. This sewer main is required to be relocated due to the proposed vacation of Edgar Road by this plat. Sanitary sewer service will require the extension of a public 8-inch diameter sewer main within the subdivision along a dedicated easement from Montoya Lane to the southern boundary of the subdivision.

General:

9. During the site improvement work, the Owner/Developer shall safeguard the existing water main sanitary and appurtenant structures. The Owner/Developer shall minimize changes in grade above or near the vicinity of the existing PSB facilities and is responsible for the cost of setting appurtenant structures to final grade.

10. All easements dedicated for public sanitary sewer facilities shall comply with the EPWU-PSB Easement Policy. The PSB easements shall be improved to allow the operation of EPWU maintenance vehicles. EPWU-PSB requires access to the proposed PSB facilities within the easements 24 hours a day, seven (7) days a week.

11. EPWU requires a new service application to serve the subject property. The following items are required at the time of application: (1) hard copy of subdivision plat with street names and addresses; (2) finalized set of street improvement plans, including storm sewer; (3) digital copy of subdivision plat; (4) benchmark check; and (5) construction schedule. Service will be provided in accordance with the current EPWU – PSB Rules and Regulations. The owner is responsible for the costs of any necessary on-site and off-site extensions, relocations or adjustments of water and sanitary sewer lines and appurtenances.

No comments received.

Additional Requirements and General Comments:

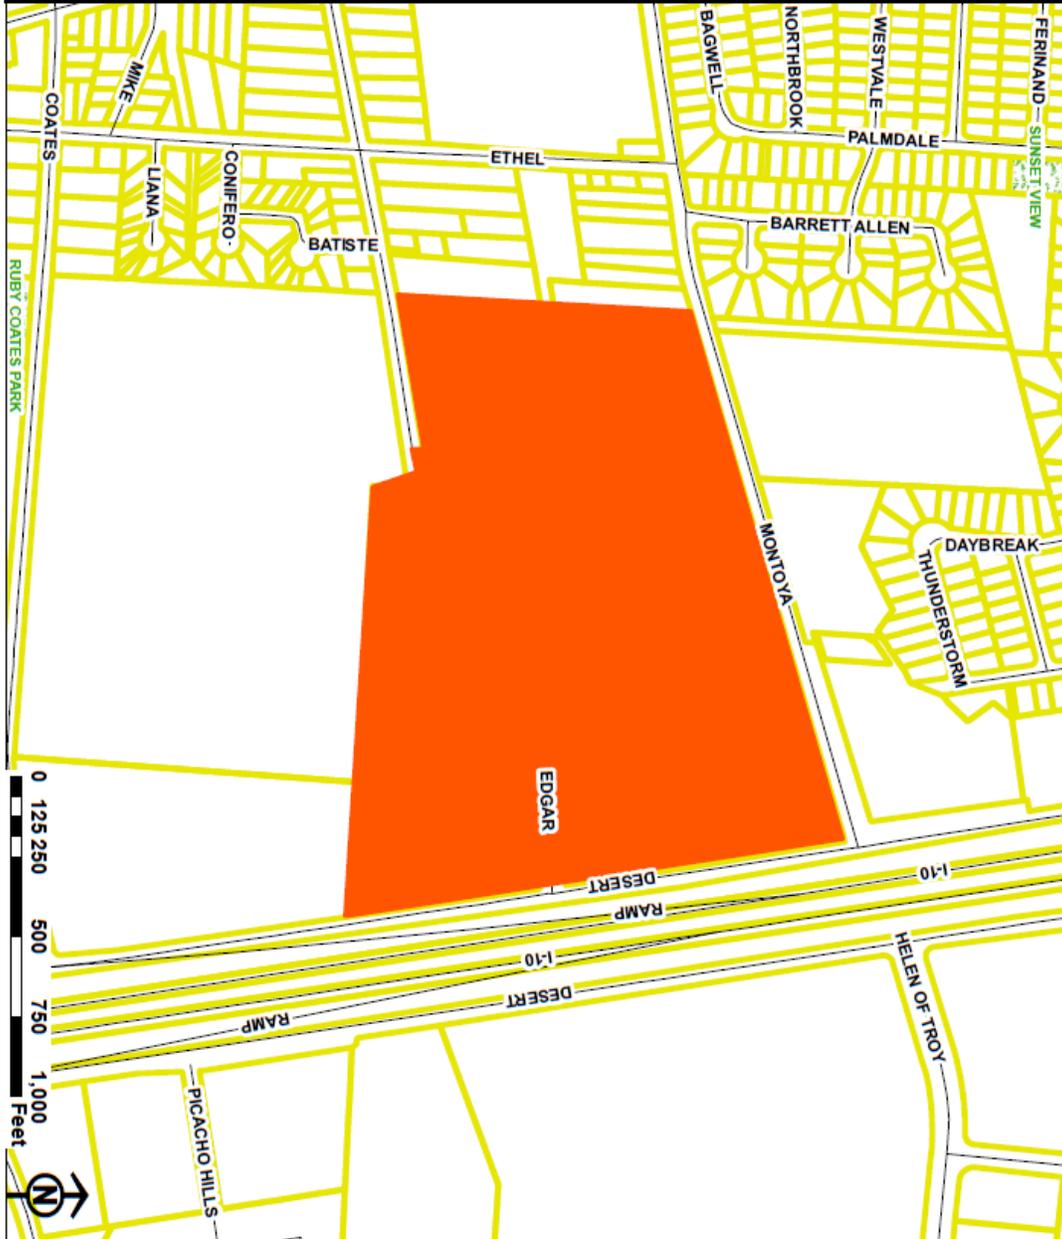

1. Submit to the City Development Department – Planning Division the following prior to recording of the subdivision.
 - a. Current certified tax certificate(s)
 - b. Current proof of ownership
 - c. Release of access document, if applicable
 - d. Set of restrictive covenants, if applicable
 - e. Deed for property to be dedicated as parkland.
2. Every subdivision shall provide for postal delivery service. The subdivider shall coordinate the installation and construction with the United States Postal Service in determining the type of delivery service for the proposed subdivision. In all cases, the type and location of delivery service shall be subject to the approval of the United States Postal Service.
