**PLAN EL PASO DESIGNATION:** G3 Post-war

### **APPLICATION DESCRIPTION**

The applicant proposes to subdivide one commercial lot which is approximately one acre in size. Access to the subdivision is proposed from Alameda Avenue. Alameda is designated as a major arterial street requiring 100' of right-of-way. Currently, Alameda has 80' of right-of-way with 68' of pavement and 6' sidewalks. The applicant is dedicating their proportionate share of ROW (10') and improving the sidewalk and parkway per the Design Standards for Construction. ~~The applicant did submit a request to waive right of way improvements and dedication.~~ This development was reviewed under the current subdivision code.

### **DEVELOPMENT COORDINATING COMMITTEE**

The Development Coordinating Committee recommends **approval** of Hutton Go #3 on a Major

Combination basis subject to the following ~~condition and~~ comments.

- ~~• That the City Plan Commission requires the applicant to dedicate their proportionate share of right-of-way (10') in accordance with Section 19.10.050 (Roadway participation policies — Improvements of roads and utilities within and or abutting the subdivision) and subject to TxDOT approval.~~
- ~~• That the City Plan Commission requires the applicant to improve the sidewalk and parkway in accordance with the Design Standards for Construction and subject to TxDOT approval.~~

**Planning Division Recommendation:**

**Approval.** The proposed development meets Title 19 – Subdivision and Development Plats. ~~The applicant shall dedicate 10' of additional ROW to comply with Section 19.10.050 (Roadway participation policies — Improvements of roads and utilities within and or abutting the subdivision). The applicant shall also improve the sidewalk and parkway to meet ADA requirements and the Design Standards for Construction.~~

**Planning and Inspections Department - Land Development**

We have reviewed subject plats and recommend **Approval**; no objections.

**Parks and Recreation Department**

We have reviewed **Hutton Go Subdivision Unit 3**, a minor plat map and offer Developer / Engineer the following comments:

Please note that this subdivision is zoned "C-1" meeting the requirements for Non-residential uses as well as for Multi-family dwellings use restricted to a maximum of 29 dwelling units per acre however, Applicant has submitted preliminary covenants restricting the use to general commercial purposes only and prohibiting all residential uses therefore, "Park fees" will be assessed based as follows:

1. **If** gross density waiver is granted by the Planning Department or designee and a copy of the final recorded covenants is provided restricting all residential uses, then applicant shall be required to pay "Park fees" in the amount of **\$1,100.00** based on Non-residential subdivision requirements calculated as follows:

Non-residential acreage 1.10 (rounded to two decimals) @ \$1,000.00 per acre = **\$1,100.00**

Please allocate generated funds under Park Zone: **MV-2**

Nearest Parks: **Vocational Park Pond** & **Riverside**

**If** density/acreage is increased /decreased or the property zoning /use changes, then "Park fees" will be re-assessed based on applicable conditions.

**El Paso Water Utilities**

1. EPWU does not object to this request.
2. Alameda Avenue is a Texas Department of Transportation (TxDOT) right-of-way. All proposed water and sanitary sewer work to be performed within Alameda Avenue right-of-way requires written permission from TxDOT.

**Water:**

3. There is an existing 12-inch diameter water main extending along Alameda Avenue that is

available for service, the water main is located approximately 29-ft south from the center line of the right-of-way.

4. EPWU records indicate two vacant water service connections (inactive meters) serving the subject property. The addresses for these services are 7369 and 7365 Alameda Avenue.

5. Previous water pressure from fire hydrant #94 located approximately 286-ft west of Southwestern subject property line has yield a static pressure of 90 (psi), a residual pressure of 90 (psi), and a discharge of 1,256 gallons per minute.

6. The owner should, for his own protection and at his own expense, install at the discharge side of each water meter a pressure regulator, strainer and relief valve, to be set for pressure as desired by the customer. The Lot owner shall be responsible for the operation and maintenance of the above-described water pressure regulating device.

**Sewer:**

7. There is an existing 8-inch diameter sanitary sewer main extending along Alameda Avenue that is available for service, the sewer main is located approximately 25-ft north from the center line of the right-of-way. The sewer main is approximately 6.5-ft depth.

**General:**

8. EPWU requires a new service application to provide additional service(s) to the property. New service applications are available at 1154 Hawkins, 3rd floor and should be made 6 to 8 weeks in advance of construction to ensure water for construction work. A site plan, utility plan, grading and drainage plans, landscaping plan, the legal description of the property and a certificate-of-compliance are required at the time of application. Service will be provided in accordance with the current EPWU – PSB Rules and Regulations. The applicant is responsible for the costs of any necessary on-site and off-site extensions, relocations or adjustments of water and sanitary sewer lines and appurtenances.
