### **APPLICATION DESCRIPTION**

The applicant proposes to subdivide 16.54 acres of vacant land. The proposed subdivision is comprised of 40 single-family residential lots ranging between 10,105 and 63,568 square feet, a .37-acre park site and a linear park/pedestrian trail that connects the park with the rest of the development. With this plat, the applicant is also dedicating 30 feet of additional ROW to Westside Drive to comply with the arterial designation of the street. Access to the subdivision is proposed from Westside Dr. and Tyler Seth Avenue. The subdivision is vested under the former subdivision code.

A zoning condition exists stating that the density be restricted to 2.5 units per acre; that the

property owner provide a 10' pedestrian pathway connection to the Stevens lateral; and that the property owner plant trees along Tyler Seth and Westside Drive. The zoning condition is being observed through this development.

Additionally, the applicant is requesting the following modifications **and alternative park design**:

- To allow a park size smaller than one acre in size
- To allow the use of pedestrian/park trails
- To use the current Parkland Improvement Standards
- ~~To allow a park to abut a residential lot.~~

### **CASE HISTORY**

The City Plan Commission, at its regular meeting of December 5, 2013, voted to approve Sereno Valley Estates on a Major Preliminary basis. With this application, the applicant is seeking approval of the final plat which includes 40 residential lots as opposed to the 41 included during the preliminary. The reduction in residential lots is consistent with the recommendation for approval of the preliminary plat.

### **DEVELOPMENT COORDINATING COMMITTEE**

The Development Coordinating Committee recommends **approval** of the modifications/**alternative park design** and **approval** of Sereno Valley Estates on a Major Final basis **subject to the following condition**:

- That the turnaround at the end of Valle De Paz Avenue comply with Section 19.16.020 (Streets) of the former subdivision code and Design Standards for Construction.

### **Planning Division Recommendation:**

Staff recommends approval with the modification **and condition**. As per Section 19.04.170 (Modification of conditions):

*A-3. The subdivider has demonstrated an alternative method of development that will improve the aesthetic value of the subdivision while giving equal emphasis to safety, economy, tax yield, maintenance cost, response time, drainage dedication and improvement of parkland and open space amenities, and vehicular access and pedestrian passage.*

### **City Development Department - Land Development**

We have reviewed subject plat and recommend **approval**; no objections.

### **Parks and Recreation Department**

We have reviewed **Sereno Valley Estates**, a major final plat map which is composed of **42** (R-2/c) Single-family residential dwelling lots and includes a **0.37 acre** "Pocket Park" and **& 0.681 acres** of "Linear Parks" in 4 Sections and offer the following comments:

1. All improvements to the "Pocket Park" shall comply with the current "Alternative Design Standards" and current Park Design Standards as approved by Mayor and Council.

Please note that this subdivision meets and exceed the minimum "Parkland" requirements as per ordinance Title 19 – Subdivisions and Development Plats, **Chapter 19.20 – Parks and Open Space** therefore, Parks Department recommends approval of this subdivision.

This subdivision is located with-in "Park Zone": **NW-8**
