**Impact Fee Area:** N/A  
**Property Owner:** Camino Real Investments I LTD  
**Applicant:** Camino Real Investments I LTD  
**Representative:** Conde Inc

### **SURROUNDING ZONING AND LAND USE**

**North:** C-3/sc (Commercial/special contract)  
**South:** C-3/sc (Commercial/special contract)  
**East:** C-3/sc (Commercial/special contract)  
**West:** C-3/sc (Commercial/special contract)

**PLAN EL PASO DESIGNATION:** G4, Suburban Walkable

### **APPLICATION DESCRIPTION**

The applicant proposes to subdivide approximately .7 acres of vacant land on the city's west side. The proposed subdivision consists of a .5 acre public park and a .2 acre portion of street. The public park dedicated by this plat partially satisfies the parkland dedication requirement for Desert Pass Unit 2, approved by the City Plan Commission on January 8, 2015. This subdivision was reviewed under current code and no exceptions or waivers have been requested.

### **DEVELOPMENT COORDINATING COMMITTEE**

Recommends **approval of Desert Pass Unit 3 on a major combination basis** subject to the following staff comments:

**Planning Division Recommendation**

Planning recommends approval

**Planning and Inspections Department - Land Development**

We have reviewed subject plats and recommend **Approval**.

**Parks and Recreation Department**

We have reviewed **Desert Pass Unit 3**, a major combination plat map and offer no objections to this plat application.

Please note that proposed use for this Subdivision is for “Future Park”

Under the Municipal Code definitions is considered a "Public facility" therefore, meeting the requirements to be excluded from the calculation for parkland dedication ordinance Title 19 – Subdivision & Development Plats, **Chapter 19.20 Parks and Open Space** as noted below:

**19.20.060 - Exclusions from Dedication Requirements.**

**Exclusions.** The following shall be excluded from the calculation for parkland dedication. In all instances, the burden of proof shall be on the subdivider to demonstrate that the plat meets the requirements of this chapter:

*H. Land shown within a subdivision, whether residential or nonresidential, which is designated for use as a "Public facility".*

**Also**, please note that “Parkland Credits” in the amount of **0.50 acres** are granted for this subdivision to partially offset “Parkland” dedication requirements for Desert Pass unit 2 Subdivision.

We offer the following **informational comments** to assist Applicant in the design of the new Park's construction drawings.

Please note that design layout (Concept & Final) need to be coordinated with Parks Department for review and approval and are to include at minimum the following improvements:

1. Refer to Park’s Design & Construction Standards as approved by Mayor and Council on 01/08/2013
2. Irrigation System shall be designed by a Licensed Irrigator Registered in the State of Texas, in good Standing, with a minimum 5 years of experience, and with a minimum of 10 designs of comparable size systems.
3. Provide for park to be named “**Desert Gem Park**”
4. Irrigation System must be designed to accommodate site static water pressure or a pump must be incorporated to accommodate design criteria.
5. Note for all park improvements (sidewalks, Ramps, etc.) and paved Hike/Bike trails (if applicable) to be compliant with required accessibility criteria as set forth in ADAAG & TAS standards as mandated by Federal and State Governments.
6. Project(s) must be coordinated with TDLR to insure compliance with TAS requirements

to include inspection, and certificate of substantial completion; approval of the subdivision /park improvement plans is subject to applicant providing proof of the project registration number (PLD # by the State Agency).

7. No signs, fire hydrants, lights, NDCBU's, electrical/water boxes, telephone pedestals, no obstructions in general, shall be placed into proposed perimeter sidewalk, nor shall any utility conduits be placed along the park site – Any utilities with-in the parkway need to be underneath the proposed sidewalk and buried at 5' minimum cover.
8. Provide frontage lighting along adjacent Public Street rights of way. Engineer to coordinate with E.P.E.Co., Land Development, and Parks Dept. light poles & conduit placement for perimeter lighting prior to street paving; perimeter street lighting shall be coordinated for light poles to be installed at max. 300' apart and/or at all street intersections along the park side and not along the residential side to prevent duplication of light poles.
9. Developer shall obtain soil samples (taken from proposed park site location finished ground) & provide complete analysis report (textural, minerals availability, water infiltration, detailed salinity, & PH conductivity test) with recommendations for soils amendments and preparation to insure existing soil conditions are suitable for turf, shrubs, and tree growth; coordinate site visit with Parks staff for collection of soil samples.
10. Any unsuitable soil conditions shall be remedied to eliminate hard soils, stony soils, high caliche soils, clay soils and contaminated soils to a minimum depth of 12 inches and by shattering, in two directions, of hard pan caliche, clay soils, rocks to a depth of 36 inches below finished grade as required for proper planting as per Parks Design & Construction Standards.
11. Any unsuitable soil materials not approved by Parks Department are to be removed, disposed-off, and replaced with top soil to a minimum depth of 12 inches.
12. Any rock walls, retaining walls, or fences to be constructed along the park abutting residential sites need to be off of the Park and to be constructed by Developer if required in order to minimize disturbance to the park improvements.
13. Any sloped areas (if flatter areas are not feasible) along park's frontages shall be at the max. 1 vertical : 20 horizontal (5%) and along residential or commercial areas at max. 1 vertical : 4 horizontal (25%) with a minimum 15 bench or as determined according to the park improvements review at adjacent properties.
14. If any slopes are required along residential sides there is a need to have a minimum five feet (5') benches at top and toe of slopes and to be kept clear of any improvements such as rock walls, walk path or sidewalks.
15. Provide adequate cross-sections enough to better understand the finished improvements.
16. Grading and drainage plan for the site, to be reviewed and approved by Parks Department.
17. Applicant / Contractor are required to obtain irrigation and any other required permit(s) from Land Development Services and Building Permits & Inspections Division.

18. At minimum, a 7' wide concrete sidewalk is required all along the park's frontage.
19. Park improvements shall be in accordance with the most current Park and Open Space ordinance Section 19.20
20. Provide an age appropriate 2-5 or 5-12 years old play structure from approved vendors.
21. Street trees shall be provided along the parkway spaced at maximum 20' on center.
22. Construction of Park improvements need to be coordinated and inspected by Parks Department.
23. Park Site acceptance is contingent upon completion of all street improvements abutting the park.

### **El Paso Water Utilities**

1. EPWU-PSB does not object to this request.
2. The Owner/Developer of Desert Pass Unit 1 has entered into a Development Agreement with the El Paso Water Utilities – Public Service Board (EPWU-PSB) to construct an 8-inch diameter water main along Desert Pass St. and an 8-inch diameter sewer main along a portion of Desert Pass St., south of the 20-ft drainage easement. These mains will be available for service after EPWU issues final acceptance.

#### **Water:**

3. An 8-inch diameter water main is being constructed along Desert Pass Street approximately 10-ft east from the center line of the right-of-way, under Desert Pass Unit 1 Development Agreement. The main will be available for service after EPWU issues final acceptance to the Owner/Developer of Desert Pass Subdivision Unit 1.
4. An 8-inch diameter water main stub-out is being constructed along Gem Street, the water main will be located approximately 10-feet north from the center line of the right-of-way. Said main will end approximately 5-feet east of Desert Pass Street; two 6-inch diameter water main extensions along Gem Street will be required to loop the water system and provide services to future developments. The mains will be available for service after EPWU issues final acceptance.
5. The subdivision is anticipated to be located within an intermediate pressure zone. Pressure reducing and pressure relief valves will be required within the water distribution system. In addition, private water pressure regulating devices will be required at the discharge side of each water meter. The Owner/Developer shall include in the sale of contract documents that the lot buyer shall acquire ownership of the above-described water pressure regulating devices to be located at the discharge side of the water meters.

#### **Sewer:**

6. There is an existing 12-inch diameter sanitary sewer main extending along Desert Pass Street that is available for service, the sewer main is located approximately 5-ft west from the center line of the right-of-way.
7. An 8-inch diameter sanitary sewer main stub-out is being constructed along Gem Street, the sewer main will be located approximately 5-ft south from the center line of the right-of-way. Said main will end approximately 5-feet east of Desert Pass Street; the extension of an 8-inch

diameter sewer main along Gem Street will be required to provide service to future developments. The main will be available for service after EPWU issues final acceptance to the Owner/Developer of Desert Pass Subdivision Unit 1.

**General:**

8. During the site improvement work, the Owner/Developer shall safeguard the existing sanitary sewer main and appurtenant structures. The Owner/Developer shall minimize changes in grade above or near the vicinity of the existing PSB facilities and is responsible for the cost of setting appurtenant structures to final grade.

9. EPWU requires a new service application to serve the subject property. New service applications are available at 1154 Hawkins, 3<sup>rd</sup> Floor. The following items are required at the time of application: (1) hard copy of subdivision plat with street names and addresses; (2) finalized set of street improvement plans, including storm sewer; (3) digital copy of subdivision plat; (4) benchmark check; and (5) construction schedule. Service will be provided in accordance with the current EPWU – PSB Rules and Regulations. The owner is responsible for the costs of any necessary on-site and off-site extensions, relocations or adjustments of water and sanitary sewer lines and appurtenances.
