    - District: 8
    - Staff Contact: Alfredo Austin, (915) 212-1604, [austinaj@elpasotexas.gov](mailto:austinaj@elpasotexas.gov)

Alfredo Austin, Planner, gave a presentation and noted that the applicant proposes to replat 5.2591 acres of land into 1 lot that will be used for a public facility (indoor pool). Access to the subdivision is proposed from Wallenberg Drive. The reason for the replat is to combine a portion of a platted lot with a portion of an unplatted lot, and to vacate a portion of unimproved right of way that was dedicated as a turnaround on the original plat. The turnaround is no longer needed because Wallenberg Drive connects to Mesa Drive. This development is being reviewed under the current subdivision ordinance. Staff recommends approval of West Side Park Replat A on a Resubdivision Combination basis.

Kimberly Forsyth, Lead Planner, clarified that there is a provision in the code that allows any applicant, whether it be the City or an outside applicant, to replat unimproved right-of-way. The applicant does not need to vacate it. They can replat it if it's never been improved but if it is improved that's when you do the vacation process.

Daniel Garcia from City Engineering, representing the City of El Paso, concurred with staff's comments.

Commissioner Wright asked if there was anyone in the public who wished to speak in favor or against this request. There was no response.

**ACTION:** Motion made by Commissioner Ardivino, seconded by Commissioner Erickson, and unanimously carried to **APPROVE SUSU15-00028.**

 Staff Contact: Michael McElroy, (915) 212-1612, [mcelroyms@elpasotexas.gov](mailto:mcelroyms@elpasotexas.gov)

Michael McElroy, Planner, gave a presentation and noted that there is a revised staff report for this item. The property owner is requesting a rezoning from R-3 (Residential) to S-D (Special Development) to permit the construction of a six unit apartment complex totaling 8,508 square feet. The property is currently vacant. Twelve parking spaces are required and 13 are proposed (six internally), to include ADA and three bicycle parkings. The proposed development requires 1,570 square feet of landscaping and the applicant proposes 2,733 square feet. Access is proposed from Lomaland Drive. Staff received four letters of opposition to the rezoning request. Staff recommends approval of rezoning the subject property from R-3 (Residential) to S-D (Special Development) and approval of the detailed site development plan. The proposed zoning district is consistent with other apartment zoning districts in proximity to the subject property. Furthermore, the proposed development is compliant with the G-3 Post-War land use designation in the Mission Valley Planning Area.

Jesus Jaime concurred with staff's comments.

Commissioner Wright asked if there was anyone in the public who wished to speak in favor or against this request. The following persons spoke in opposition.

- Jorge Nuñez spoke in opposition to this request noting that they have had issues with the property owner never cleaning the vacant land and he feels that if the property owner

cannot keep the vacant lot clean then he will definitely not keep up with the apartments. He expressed safety issues being that anyone can move into those apartment.

- Araceli Nuñez spoke in opposition to this request and expressed some safety concerns and concerns about crime.
- Frank Novoa spoke in opposition to this request expressing concern about congestion.

Commissioner Ardovino suggested that staff meet with the residents and show them that it is well situated in terms of the lay out of the buildings compared to houses.

Carlos Gallinar, Deputy Director for Planning & Inspections, noted that the commission could add conditions as part of the motion. He noted that if the commission would like a wider landscape buffer between this development and the single family home, they could place this as a condition.

Commissioner Erickson noted that these are large apartments and he does not see the threat for safety problems.

Commissioner Wright allowed Araceli Nuñez an additional minute to speak. She noted that there are already two mobile home communities there, plus three apartment complexes, one of them being government projects. She also expressed concern about the value of her property being depreciated.

Michael McElroy noted that there is a standard landscape buffer, typically 10' in width composed of trees placed at 30' on center, the trees themselves being of 2" caliper. The spacing of the trees can be changed to 20' or 25' of spacing between the trees.

Commissioner Ardovino noted that one corner of the house touches the wall and asked if staff was okay with the setbacks.

Michael McElroy noted that the setback at that corner is 1' and the Fire Department recommended approval but required that the corner of that apartment be sprinkled. He noted that the applicant is aware of this requirement from the Fire Department.

Carlos Gallinar noted that the commission can approve the detailed site plan with some modifications.

**ACTION:** Motion made by Commissioner Brannon seconded by Commissioner Ardovino, and carried to **APPROVE PZRZ15-00009 WITH A 5' SETBACK, A 10' LANDSCAPE BUFFER, AND WITH A 20' SEPARATION BETWEEN TREES ABUTTING RESIDENTIAL.**

**AYES:** Commissioner Brannon, Grambling, Erickson, Wright, Ardovino, and Landeros

**NAYS:** Commissioner Madrid

Motion passed. (6 to 1 vote).
