North: SCZ / Vacant
South: SCZ and A-2 / Apartments
East: SCZ / Vacant
West: GMU / Mixed-use Development

PLAN EL PASO DESIGNATION: G2 Traditional Neighborhood (Walkable)

APPLICATION DESCRIPTION

The applicant proposes to subdivide 12.686 acres of vacant land. Two commercial lots, a 5.083-acre “common open space” site and one retention pond are all proposed within this phase of this subdivision. Primary access to the subdivision is proposed from Mesa Street. This application is being reviewed under Title 21 (SmartCode) and is required to comply with the approved Montecillo Regulating Plan. ~~The applicant has submitted an alternative design to use a modified hammerhead cul-de-sac at the end of Montecillo Blvd.~~

DEVELOPMENT COORDINATING COMMITTEE

~~Pending~~ submittal of the alternative design request. ~~and approval~~ of Montecillo Unit Five “A” on a Major Final basis, subject to the following condition and requirements:

Planning Division Recommendation:

~~Pending.~~ **Approval** of the alternative design and Montecillo Unit Five "A".

Long Range Planning Section

The Long Range Planning section has reviewed the plat and recommends **Approval**. A Final Building Scale Plan for the area of this plat was approved by the Consolidated Review Committee on June 2, 2014, with conditions of approval attached, which shall be addressed before the issuance of any building permits.

Transportation Planning Section

Transportation Planning provides the following comments for proposed Montecillo Unit Five "A" major final subdivision:

- Street trees shall be placed in conformance with the approved regulating plan.

City Development Department - Land Development

We have reviewed subject plats and recommend **Approval**.

The Developer/Engineer shall address the following comments.

1. Verify if entire 15' R.O.W. & drainage easement is to be vacated. Portion of easement East of Montecillo will contain an 18" PVC pipe from Kings Hill Apartments.
2. Show existing and proposed drainage flow patterns on the preliminary plat. Identify the discharge location for all storm-water runoff.
3. Pond should comply with the DSC and DDM.

Parks and Recreation Department

We have reviewed **Montecillo Unit Five "A"**, a major final plat map zoned "SCZ" (Smart Code Zoning) therefore, not required to comply with the parkland dedication ordinance Title 19 – Subdivision & Development Plats, **Chapter 19.20 - Parks & Open Space**, however, applicant needs to comply with Title 21 Smart Code Zoning requirements; with the approved "Building Scale Plan" and the "Regulating Plan"

Parks have no objections to this subdivision application; however, we offer the following comments:

1. Per site visit observations, existing concrete flumes, drainage structures and surface flow storm water run-off is coming from the King Hills Apartments (southeast property) and running thru the "Common Open Space" area (Lot 1, Block 11) - A storm drainage control may have to be provided to avoid erosion of the face of the slopes.
2. Above mentioned slopped "Common Open Space" area (Lot 1, Block 11) is non-useable for un-structural recreation use as per interdepartmental discussions and will not be counted towards the required percentage of civic space, however, is part of the approved "Building Scale Plan" and needs to be restored.

Comments to be addressed at the Subdivision Improvement Plans process:

1. Manmade slopes /disturbed areas with-in the "Common Open Space" shall be re-vegetated with desert plants complete with drip / irrigation system if required by the "Grading Ordinance" or any other code requirements.

2. All Common Open Space areas need be cleaned and free of trash.
3. Developer / Engineer shall be responsible for mitigating the storm water run-off, erosion, and unstable slopes with-in the "Common Open Space" areas.
4. During grading, Developer shall be responsible for salvaging as much Cactus barrels as possible as well as full grown Yuccas and replanted as necessary with-in any areas meant to be left natural and undisturbed.

El Paso Water Utilities

We have reviewed the subdivision described above and provide the following comments:

1. EPWU has coordinated with the developer the means of providing water service to Montecillo Unit 5A on a temporary basis from the existing 12-inch diameter water main along Montecillo Boulevard that dead-ends just east of the western property line of this subdivision. This water main operates on the Montecillo Intermediate Pressure Zone.
2. Permanent water service for this subdivision will be made available to the subdivision thru a water main extension along a future roadway alignment from an existing 12-inch diameter water main along Argonaut Drive. This water main operates in the Mission Hills pressure zone and can provide service up to elevation 4270 ft. (PSB Datum).

Water:

3. Private water pressure regulating devices will be required at the discharge side the water meter. The Developer shall include in the sale of contract documents that the lot/home buyer shall acquire ownership of the above-described water pressure regulating devices to be located at the discharge side of the water meters. The lot/home buyer shall be responsible for the operation and maintenance of the above-described water pressure regulating devices.

Sewer:

4. There is an existing 8-inch diameter sewer main along Montecillo Boulevard that dead-ends at the eastern right-of-way line of Mesa Street. Due to the topography of the subdivision, sewer main extensions within dedicated easements are anticipated. Owner's engineer is to coordinate with EPWU-PSB the width and alignment of said easements.
5. EPWU requires a new service application to serve the subject property. New service applications are available at 1154 Hawkins, 3rd Floor. The following items are required at the time of application: (1) hard copy of subdivision plat with street names and addresses; (2) finalized set of street improvement plans, including storm sewer; (3) digital copy of subdivision plat; (4) benchmark check; and (5) construction schedule. Service will be provided in accordance with the current EPWU – PSB Rules and Regulations. The owner is responsible for the costs of any necessary on-site and off-site extensions, relocations or adjustments of water and sanitary sewer lines and appurtenances.

El Paso Fire Department

No comments received.

Sun Metro

Sun Metro recommends the placement of sidewalks and ADA compliant improvements throughout the development to City standards to provide pedestrian accessibility to mass transit services.

El Paso Department of Transportation

No comments received.

TxDOT

No comments received.

Central Appraisal District

No objections.

El Paso Electric Company

No comments received.

Texas Gas Company

No comments received.

El Paso Independent School District

No comments received.

Additional Requirements and General Comments:

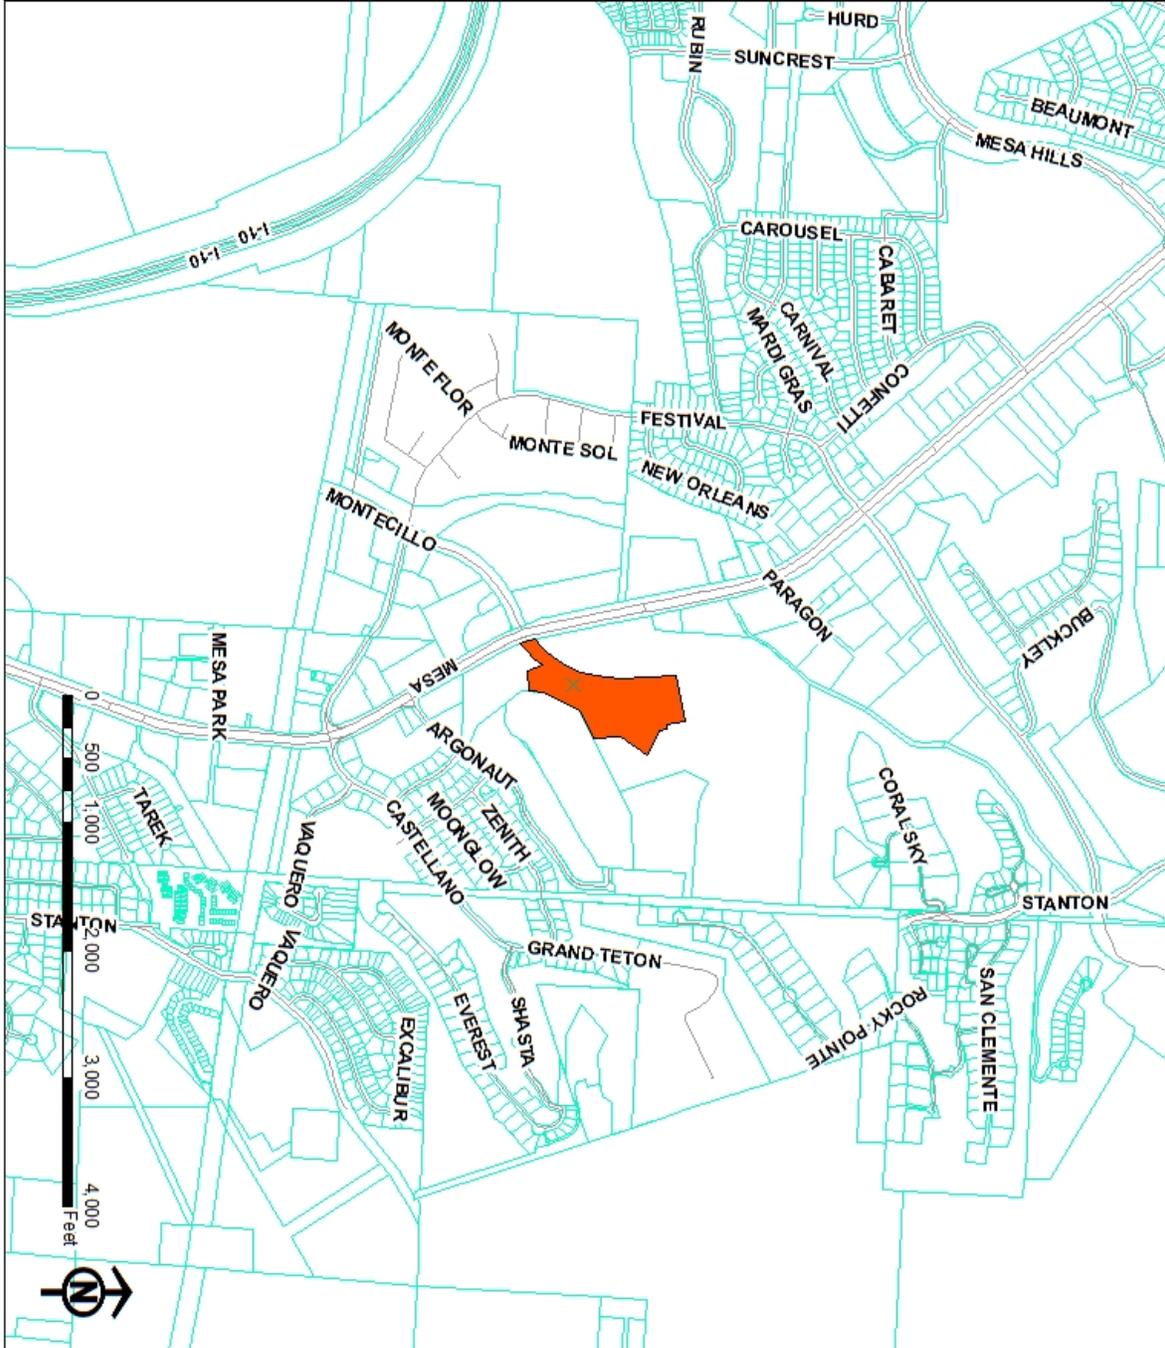

1. Submit to the City Development Department – Planning Division the following prior to recording of the subdivision.
 - a. Current certified tax certificate(s)
 - b. Current proof of ownership
 - c. Release of access document, if applicable
 - d. Set of restrictive covenants, if applicable
2. Every subdivision shall provide for postal delivery service. The subdivider shall coordinate the installation and construction with the United States Postal Service in determining the type of delivery service for the proposed subdivision. In all cases, the type and location of delivery service shall be subject to the approval of the United States Postal Service.
3. As per section 19.15.060.E (Transitions of Right-of-Way Width), street width transitions shall not occur within an intersection but within the street right-of-way so that the right-of-way shall be the same on both sides of the street intersection. Verify that the Montecillo/ Mesa intersection meets the criteria.
4. Access to Mesa Blvd. shall be coordinated with TxDOT
