**Re: Garden Park at Mission Ridge Unit One  
Petition for Exception to Block Face Length and Block Perimeter Length  
TRE No.: 1502-10455-14**

Dear Ms. Forsyth:

On behalf of Hunt Mission Ridge, LLC, TRE & Associates, LLC, is respectfully submitting a petition for exception for the block perimeter length and block face length in the Subdivision ordinance in which the full perimeter of a block shall not exceed two thousand four hundred feet (2400') and block faces shall not exceed one thousand feet (1000').

Garden Park at Mission Ridge Unit One is a proposed residential subdivision that abuts existing residential subdivisions, Americas Estates Unit One and Americas Estates Unit Two. GPMRU1 will connect to AEU2 through Colonial Bluff Street. Northumberg Drive which runs east and west at the south end of the subdivision will provide access, at the east end, to future development. Due to topographic constraints, Aitken Drive will not provide access to future development and end at Colonial Bluff Street. The existing terrain falls 30 feet vertically and 150 feet horizontally which makes construction of a geometrically correct roadway infeasible. In addition, the existing terrain would create retaining walls in excess of 15' along the existing pond from AEU2. Therefore, block 7 is enclosed and continues into AEU2 where the block face length and block perimeter length exceed the 1000 feet and 2400 feet, respectively, from the subdivision ordinance.

As previously mentioned, the existing terrain within GPMRU1 poses a challenge. Block 5 of GPMRU1 requires rear sloping and also retaining walls in excess of 10 feet. The rear sloping within Block 5 requires longer lots which results in a longer block perimeter. Due to these topographic constraints, Block 5 has a block perimeter of 2626 feet which exceeds the block perimeter of 2400 feet from the subdivision ordinance. Thus, exception was previously approved on August 22, 2013 by City Plan Commission.
