NEIGHBORHOOD INPUT

Notice of a Public Hearing was mailed to all property owners within 300 feet of the subject property on July 30, 2014. The Planning Division has not received any phone calls or letters in support or opposition to the rezoning request.

CASE HISTORY

On October 23, 1990, City Council approved a rezoning request for the subject property from R-3 (Residential) to A-O/c (Apartment/Office/condition) and imposed a condition by Ordinance No. 010264 (see Attachment #4) as follows:

Prior to the issuance of a building permit for Parcel A, B, C, or E, a detailed site development plan must be reviewed by City Plan Commission and approved by City Council for each parcel requiring the permit.

The applicant will be submitting the application for detailed site development plan at a later time, and is aware of the detailed site development plan requirement.

APPLICATION DESCRIPTION

The applicant is requesting to rezone the subject property from A-O/c (Apartment/Office/condition) to C-1/c (Commercial/condition) to allow for retail uses. Retail uses are not permitted in A-O (Apartment/Office) zone district. The subject property is 2.023 acres in size and is currently used as a daycare. The existing structure will be demolished. The conceptual site plan shows three new retail buildings. Access to the subject property is proposed from Redd Road.

PLANNING DIVISION RECOMMENDATION

The Planning Division recommends **approval** of rezoning the subject property from A-O/c (Apartment/Office/condition) to C-1/c (Commercial/condition). The recommendation is based on the compatibility with surrounding land use and the existing C-1 (Commercial) zoned properties to the north and east of the subject property and the compliance with the Plan El Paso land use designation, G-4, Suburban (Walkable) in the Northwest Planning Area.

Plan El Paso- Future Land Use Map Designation

All applications for rezoning shall demonstrate compliance with the following criteria:

G-4, Suburban (Walkable): This sector applies to modern single-use residential subdivisions and office parks, large schools and parks, and suburban shopping centers. This sector is generally stable but would benefit from strategic suburban retrofits to supplement the limited housing stock and add missing civic and commercial uses.

The purpose of the C-1 (Commercial) district is to serve the needs of surrounding residential neighborhoods by providing compatible neighborhood convenience goods and services that serve day-to-day needs. The regulations of the districts will permit location of business and professional offices and retail category uses within adjacent residential areas of medium and high densities.

COMMENTS:
