

City of El Paso – City Plan Commission Agenda Item Information

Presentation Date: August 26, 2015
Staff Planner: Anne Antonini, (915) 212-1814, antoniniam@elpasotexas.gov
Rep District: All
Subject: Informational Presentation for Linear Parks in Utility Easements

PRESENTATION DESCRIPTION

At its July 9, 2015 meeting, Planning Commissioners requested that staff research the topic of linear parks in utility easements, and present its findings at a future City Plan Commission meeting. This presentation is in response to that request.

It will contain information on:

- Existing City policy concerning linear parks, and particularly linear parks in utility corridors;
- Comparable Texas cities' programs for the establishment of comprehensive linear trail systems;
- El Paso's existing trail system, current trail projects in development, and potential future linear trails, highlighting those proposed for utility or drainage corridors.
