El Paso Water Utilities

We have reviewed the site plan referenced above and provide the following comments:

1. EPWU objects to this request.
 - a. *The site plan proposes trees above or in the immediate vicinity of the public water and sanitary sewer mains described below. EPWU-PSB requires that trees not be placed above or within the immediate vicinity of the described mains (need at least 10-foot separation). Trees present potential obstacles to EPWU personnel and equipment at the time of providing maintenance to the mains; additionally, the trees' roots may invade the sanitary sewer mains thus creating deficiencies in the sanitary sewer flows and may break the water mains.*

EPWU-PSB Comments

2. The Owner/Developer at Enchanted Hills has entered into a Development Agreement with the El Paso Water Utilities – Public Service Board (EPWU-PSB) to construct, water and sanitary sewer mains along an easement parallel to Desert Blvd. North, Enchanted Hills Dr., and Enchanted Pass Dr. to provide service to this property. The Developer's utility contractor has completed the installation of the required water and sanitary sewer mains which will be available for permanent service after EPWU-PSB issues a Letter of Final Acceptance of the facilities. The 25 foot easement on the western portion of the property will be exclusive to EPWU-PSB.
3. Water and sewer services will be extended to the subdivision from existing facilities located on Enchanted Pass Dr., not Desert Boulevard North as stated on Note 4.
4. EPWU requires a new service application to provide service to the property. New service applications are available at 1154 Hawkins, 3rd floor and should be made 6 to 8 weeks in advance of construction to ensure water for construction work. A site plan, utility plan, grading and drainage plans, landscaping plan, the legal description of the property and a certificate-of-compliance are required at the time of application. Service will be provided in accordance with the current EPWU – PSB Rules and Regulations. The applicant is responsible for the costs of any necessary on-site and off-site extensions, relocations or adjustments of water and sanitary sewer lines and appurtenances.
