

City of El Paso – City Plan Commission

Ordinance to Amend Application Requirements
for Rezoning Special District Properties

- Ordinance revises application requirements for City owned properties being rezoned to the Urban Reserve District.
- Specifically, requirements for a legal description of the property (i.e. a description of a parcel of land indicating the lot or tract number, block number, and name of officially approved subdivision which has been recorded with the county clerk; or a metes and bounds description of a parcel of land and amount of land included, certified as a complete and proper legal description by an architect, or a professional engineer with a civil engineering degree, or a surveyor) is waived.
- The legal description requirement is replaced with a requirement for general property description, consisting of, at minimum, identification of the land survey of record in which the subject property is located and a corresponding map exhibit.
