South: GMU / C-1 / Apartments / Vacant
East: SCZ (T5O) / Vacant
West: C-2 / Commercial Storage

PLAN EL PASO DESIGNATION: G4 Suburban (Walkable)

APPLICATION DESCRIPTION

The applicant proposes to subdivide .659 acre of vacant land for one lot intended to be used as a dog park to serve the Montecillo Development/Community. Primary access to the subdivision is proposed from Mesa Street. This application is being reviewed under the current subdivision code.

CASE HISTORY

The City Plan Commission, at its regular meeting of May 30, 2013, voted to approve Montecillo Dog Park on a Major Preliminary application basis. With this application, the applicant is seeking approval of the final plat.

DEVELOPMENT COORDINATING COMMITTEE

The Development Coordinating Committee recommends **approval** of Montecillo Dog Park on a

Major Final basis, subject to the following comments.

Planning Division Recommendation:

Approval.

City Development Department - Land Development

We have reviewed subject plats and recommend **Approval.**

1. No objections.

Planning – Transportation

No comments received

Parks and Recreation Department

We have reviewed **Montecillo Dog Park**, a major final plat map and offer Developer / Engineer the following comments:

Please note that this subdivision is zoned "C-3" meeting the requirements to be used for Multi-family dwelling units however, per subdivision application, the developer is proposing a "private" dog park therefore, "Park fees" will be assessed based on requirements for Non-residential subdivisions as follows:

1. **If** gross density waiver is granted by the Planning Department or designee and covenants are provided restricting all residential uses, then applicant shall be required to pay "park fees" in the amount of **\$660.00** calculated as follows:

Non-residential acreage 0.66 (rounded to two decimals) @ \$1,000.00 per acre =
\$660.00

Please allocate generated funds under Park Zone: **NW-2**

Parks with-in Park Zone: **Galatzan & Crestmont**

Nearest Park is located with-in Park Zone NW-3: **Thunder Canyon**

If density/acreage is increased /decreased or the property zoning /use changes, then "Park fees" will be re-assessed based on applicable conditions.

El Paso Water Utilities

We have reviewed the subdivision described above and provide the following comments:

1. Modify the water and sewer note to read: "Water and sewer services will be extended to this subdivision ..."

EPWU-PSB Comments

Water

2. There is an existing 12-inch diameter low pressure water main along Mesa Street. This main is not available for service.
3. There is an existing 8-inch diameter water main within Montecillo Unit 2 that dead-ends approximately 320-feet south of the southern boundary line of the subject subdivision. An offsite

water main extension is required, within a dedicated easement, from the above mentioned 8-inch water main to the subject subdivision.

4. The subdivision is located within an intermediate pressure zone off the Mission Hills Pressure Zone. Private water pressure regulating devices will be required at the discharge side of each water meter. The Owner/Developer shall include in the sale of contract documents that the lot buyer shall acquire ownership of the above-described water pressure regulating devices to be located at the discharge side of the water meters.

Sanitary Sewer

5. There are no sanitary sewer mains along Mesa Street fronting the subject property.

6. There is an existing 8-inch diameter sewer main within Montecillo Unit 2 that dead-ends approximately 150-feet south of the southern boundary line of the subject subdivision. An offsite sewer main extension is required, within a dedicated easement, from the above mentioned 8-inch sewer main to the subject subdivision.

General

7. Owner/Developer is responsible for all water and sewer extension costs and for the acquisition of offsite easements.

8. All easements dedicated for public sanitary sewer facilities shall comply with the EPWU-PSB Easement Policy. The PSB easements shall be improved to allow the operation of EPWU maintenance vehicles. EPWU-PSB requires access to the proposed PSB facilities within the easements 24 hours a day, seven (7) days a week.

9. EPWU-PSB requires a new service application to serve the subdivision. New service applications should be made 6-8 weeks in advance of construction to ensure water for construction work. The following items, if applicable, are required at the time of application: (1) hard copy of site plan with street names and addresses; (2) finalized set of improvement plans, including grading & drainage plans; (3) digital copy of site plan; (4) benchmark check; (5) construction schedule; and (6) a certificate of compliance. Service will be provided in accordance with the current El Paso Water Utilities – Public Service Board (EPWU-PSB) Rules and Regulations. The owner is responsible for the costs of any necessary on-site and off-site extensions, relocations or adjustments of water and sanitary sewer lines and appurtenances.

El Paso County 911 District

No comments received.

El Paso Electric Company

No comments received.

Texas Gas Company

No comments received.

Socorro Independent School District

No comments received.

Additional Requirements and General Comments:

1. Submit to the City Development Department – Planning Division the following prior to recording of the subdivision.
 - a. Current certified tax certificate(s)
 - b. Current proof of ownership
 - c. Release of access document, if applicable
 - d. Set of restrictive covenants, if applicable
2. Every subdivision shall provide for postal delivery service. The subdivider shall coordinate the installation and construction with the United States Postal Service in determining the type of delivery service for the proposed subdivision. In all cases, the type and location of delivery service shall be subject to the approval of the United States Postal Service.
