Year Built: N/A
Historic Status: N/A
Request: Certificate of appropriateness for the construction of a single family residence.
Application Filed: 6/26/2012
45 Day Expiration: 8/10/2012

ITEM #1

GENERAL INFORMATION:

The applicant seeks approval for:

The construction of a single family residence.

STAFF RECOMMENDATION:

The Historic Preservation Office recommends APPROVAL, with modifications, of the proposed scope of work based on the following recommendations:

The Magoffin Historic District Design Guidelines recommend the following:

- Any new construction must be compatible in size, texture, color, design, proportion and detail to adjacent buildings and streetscapes.
- New structures should respect the integrity of existing buildings.
- Setbacks, proportion, rhythm, and building elements should all be addressed.
- Maintain the predominant existing building line.
- All new construction should preserve and enhance the streetscape.

The Secretary of the Interior's Standards for Rehabilitation recommend the following:

- New construction will not destroy historic materials, features, and spatial relationships that characterize the property.

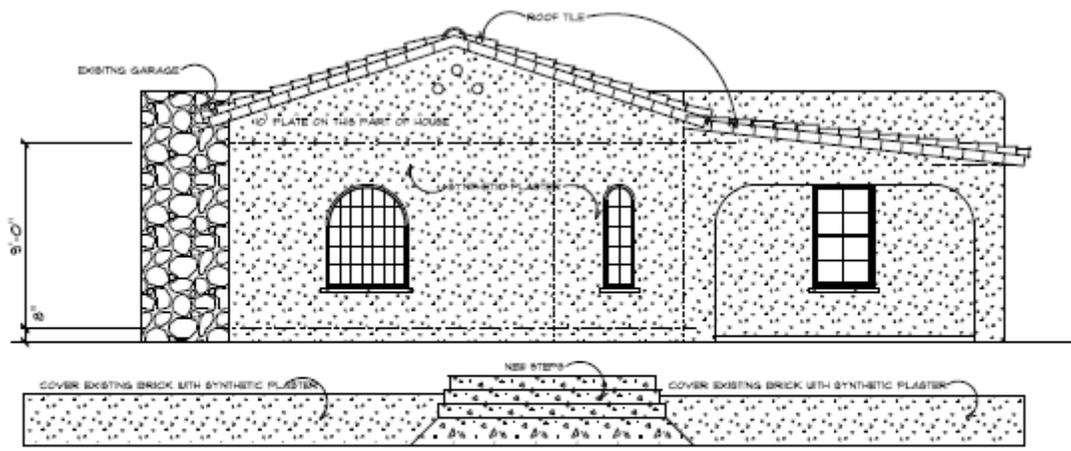

The modifications are that the parkway and front yard be provided with drought tolerant plant material. As currently shown the parkway does not meet the 50/50 hardscape vs. green area. Retain existing brick wall in its current condition, without plaster.

To Whom It May Concern:

This letter is to show the Sunset heights Neighborhood improvement association's support for the infill construction at 1416 Fewel. We have reviewed the design and spoken with Kristi Eddings on several occasions and feel confident that she will protect the historical integrity of the neighborhood. Please feel free to contact me if you have any questions.

Thank you,
