Michael McElroy, Planner, gave a presentation and noted that there is a revised staff report for this item. The request is to release a special contract imposed on the property by Ordinance No. 4928, dated September 7, 1972, which prohibited apartments on the property, imposed setback requirements, and required additional landscaping. The contract release is to permit the construction of a new 28,850 square feet financial institution on the property. There were no adverse comments from the reviewing departments. Staff received five letters in opposition to this special condition release request. Staff recommends approval of the special condition release request as the conditions are no longer necessary.

Daniel Vasquez representing GECU concurred with staff's comments.

Commissioner Wright asked if there was anyone in the public who wished to speak in favor or against this request.

- Charlie McNabb representing Mr. Bencomo, owner of Planet Fitness, noted that Mr. Bencomo had submitted a letter of denial for this request. Mr. McNabb expressed concern about visibility when exiting Mesa Street and noted that a building with 0' setback will only increase the problem. He asked for denial of this request.

Sgt. Shelley Glenn from the El Paso Police Department, working with the special traffic investigations and Red Light Camera Program gave a presentation and noted that he is requesting red light cameras at the intersections noted above. He did a survey and collected the top 20 intersections with the most 90 degree collisions. The state law requires that EPDOT survey these intersections for other possible things that can be done to decrease accidents in these intersections without a red light camera. He received confirmation from EPDOT noting that there is nothing they can do to decrease the amount of accidents on these intersections. Redflex, the company which installs the red light cameras agreed to install cameras at these intersections. Sgt. Glenn is requesting approval from the commission to install these cameras.

**ACTION:** Motion made by Commissioner Brannon, seconded by Commissioner Erickson, and carried to **APPROVE THE RED LIGHT CAMERA SYSTEMS AT PAISANO & GATEWAY NORTH (EB), SEAN HAGGERTY & GATEWAY NORTH (EB), AND SEAN HAGGERTY & GATEWAY NORTH (WB)**.

Alex Hoffman, Lead Planner, gave a presentation and noted that there is an updated ordinance for this item. He went over section by section of the ordinance and noted that this is a reflection of what some of the development industry asked for in regards to commercial signage.

Yolanda Giner, with Gordon, Davis, Johnson, & Shane, noted that they participated on some of these meetings. There were various meetings held as part of the chamber subcommittee. City staff gave the presentations and members of the chamber participated and gave comments. Ms. Giner noted that she did not see any sign company representatives at these meetings but there was a substantial amount of business community giving comments and providing their input. She feels this was a very transparent and inclusive process. She noted that they have projects pending on the passage of this sign ordinance.

The commission directed staff to clarify the sign standards for perpendicular signs. Specifically, they asked that perpendicular signs size to have a ratio of building height to sign height, with the maximum square footage of the sign not to exceed 50 square feet.
