Gentlemen

Your Committee
has investigated the financial condition of the City. at the Close of the City Fiscal year. and beg. leave to report as follows

1st The Condition of the Assessor and Treasurer Office we find is excellent. the books and accounts are kept in most perfect business like order. so as to be entirely above criticism

2nd The system of registration of warrants by the Treasurer as adopted by this Council has proven a complete success and added much to respect the financial system of the City.

3rd The condition of the various funds of the City is highly satisfactory. and the warrants drawn on the following funds are entirely paid up. viz. Street Fund including cost of El Paso Bl. Macadam. Street Maintenance. Sewer. Fire Dept Rent. Fire Dept Current. Sewer. Fund. Sewer bonds 10 p/c Sinking and interest on bonds for 1889.

The General Fund Warrants up to March 14./89 are paid up. the balance yet remaining in hands of the Assessor and Collector for collection will in case of all the funds. except the General leave a cash balance the amount of which will depend on his success in collecting the balances still outstanding, in all probability when the Asses. & Col.r makes his final deposit the City will be entirely free from current indebtedness and this in view of the fact. that the present Council has been burdened by many additional

obligations, such as rents of City Hall and Fire Dept. lighting of Streets, maintenance of Streets and Sewers, Additional Fire Hydrants and many other items necessary to keep pace with the rapid growth of the City, and the condition of the City appears highly gratifying and should prove a solid basis for our successors in office to continue the works which this Council has laid out for them.

El Paso Tex 4/6-1889

To the Hon. the Mayor
and City Council.

Gentlemen

At the time that I built my Hotel, the (El Paso House) no official grade existed in that portion of the City, they have since been established and I find that my foundation is not low enough to build a side walk in front of the building which will necessitate excavation below the foundation which will be detrimental to it, therefore I petition your Hon. body

to allow the side walks when constructed to remain at the present elevation of the ground and permit me to construct steps to connect same with the side walks, to the South of it. I beg your Honor Body will consider in connection with this the fact that the Hotel has cost me in the neighborhood of ($7000.00) Seven thousand dollars, and also that the S.P. R.R. Elevation is above grade to the same elevation as my building.

Very Respt.

W Hoppe.
