

2014-2015 Audit Plan

Prepared by the
Internal Audit Office
September 2, 2014

OVERVIEW

In accordance with *The Institute of Internal Auditors' International Standards for the Professional Practice of Internal Auditing*, Standard 2010 – Planning, the Internal Audit Office has prepared an Audit Plan for Fiscal Year 2014-2015. The 2014-2015 Audit Plan is a description of the internal audit activities that will be performed by the Internal Audit Office in Fiscal Year 2014-2015.

The process of preparing the 2014-2015 Audit Plan included identifying those areas that are considered the most important and ensuring that activities with the greatest risk are audited. The Financial and Audit Oversight Committee reviewed and approved the 2014-2015 Audit Plan. Members of the Financial and Audit Oversight Committee provided input, as did the City Manager and Deputy City Managers, where appropriate. The Financial and Audit Oversight Committee is comprised of the following members:

- Larry E. Romero, Representative District 2
- Emma Acosta, Representative District 3
- Carl Robinson, Representative District 4
- Cortney Niland, Representative District 8

Input was also provided from Mark Sutter, Interim Chief Financial Officer; Paul Stresow, International Bridges Director, Monica Lombrana, Aviation Director; Veronica Soto, Community Development Director; Bruce Collins, Purchasing Manager; Robert Ash, Pension Administrator; and Raul Escobedo, Assistant Director Sun Metro.

IDENTIFICATION OF THE AUDIT UNIVERSE AND RISK ASSESSMENT

The Institute of Internal Auditors' International Standards for the Professional Practice of Internal Auditing requires that internal auditors develop an audit plan based on the assignment of risk. The Audit Universe is a subjective assessment of auditable areas within the City of El Paso. To identify the Audit Universe, we reviewed prior audit plans, the annual financial report, and prior risk assessments. The auditable areas were broken down into seven distinct areas:

1. Mayor & City Council
2. City Manager
3. City Attorney's Office
4. Chief Financial Officer's Portfolio
5. Deputy City Manager – Community Development & Tourism Portfolio
6. Deputy City Manager – Health & Safety Portfolio
7. Deputy City Manager – Transportation & Public Works Portfolio

The following describes our planning process used to prepare the 2014-2015 Audit Plan. The 2014-2015 Audit Plan can be found as **Attachment 1**.

The Audit Universe for the City of El Paso was identified by separating the Operational, Administrative, and Executive Management functions within the City of El Paso. The Risk Assessment was designed to measure certain risk factors necessary for the City of El Paso to meet its mission, strategic plan, and its goals and objectives. Our goal is to provide reasonable assurance that the concept of risk based auditing was practiced. The risk factors used were:

- **Management Interest** – Interest by management to have an area audited due to operational or internal control concerns.
- **Budget Risk** – The risk that the City of El Paso’s annual budget will be severely affected by factors that are not planned for or anticipated.
- **Strategic Risk** – The risk that poor business decisions or improper implementation of strategic goals will reduce the City of El Paso’s ability to meet those goals.
- **Reputation Risk** – The risk that the City of El Paso’s public image will be tarnished due to improper actions on the part of officials, management, or staff.
- **Compliance Risk** – The risk that failure to comply with laws and regulations, prudent ethical standards, and contractual obligations will harm the City of El Paso.
- **High Level of Decentralization** – The risk of internal control breakdowns due to the size of large-scale departments or operations.
- **Legal Claims** – The risk of the legal claims being filed against City departments while conducting their core operations.
- **Time last audited** – The risk that certain high risks areas within the City of El Paso are not audited on a periodic basis.
- **Change in Management** – The risk of new management being assigned to an area identified in the Audit Universe.

The 2014-2015 Annual Risk Assessment can be found as **Attachment 2**.

SCOPE OF AUDITS

The Institute of Internal Auditor’s International Standards for the Professional Practice of Internal Auditing addresses the scope of work as follows:

- Review the **reliability and integrity of financial and operational information** and the means used to identify, measure, classify, and report such information.
- Review the systems established to ensure **compliance** with those policies, plans, procedures, laws, and regulations, which could have a significant impact on operations and reports, and should determine whether the organization is in compliance.
- Review the means of **safeguarding assets** and as appropriate verify the existence of such assets.
- Appraise the **effectiveness and efficiency** of operations within the organization.

- Review **operations or programs** to ascertain whether results are consistent with established goals and objectives, and whether the operations or programs are being implemented or performed as intended.

In addition, audits are completed under the guidance of the U.S. Government Accountability Office's Generally Accepted Government Auditing Standards (GAGAS). GAGAS provide a framework for conducting high quality government audits with competence, integrity, objectivity, and independence. These standards are for use by auditors of government entities and entities that receive government awards. GAGAS contain requirements and guidance dealing with ethics, independence, auditors' professional competence and judgment, quality control, the performance of field work, and reporting. Audits performed under GAGAS provide information used for oversight, accountability, and improvements of government programs and operations. GAGAS contain requirements and guidance to assist auditors in objectively acquiring and evaluating sufficient, appropriate evidence and reporting the results. When auditors perform their work in this manner and comply with GAGAS in reporting the results, their work can lead to improved government management, better decision making and oversight, effective and efficient operations, and accountability for resources and results.
