The Sewer Commission presented the following report, which was received and the recommendations adopted, to wit:
To His Honor the Mayor
and City Council of the City of La Porte
Gentlemen
I beg leave to submit the following report, to wit:

I have extended the 6 inch Sewer Line that terminated on San Antonio St. up Oregon St to Texas and East on the Lastin St to a point in the rear of the Cactus Club building, put in the flush tank and have the line running in good order, the total expense of said work being $114.21 the length of said extension being 500 ft.

I have extended the line known as the alley East of Oregon St line from its northern terminal point south of Missouri St to a point on Idaho St west of North Santa Fe Street the distance being 1000 ft at a total cost of $426.66. This line is also operating very satisfactorily and like the other line herein mentioned two sewer house connected on the same.

I would recommend that the City issue warrants to cover the above amounts in favor of petitioners asking for the extension of said lines to wit: W S Hills estate $114.21 and 10 Schuler $426.66. The Water Co. have had to run a small line of pipe to each of the above flush tanks the expense of which is not included in the above amounts as I consider that an expense of operating the System.

Respectfully Submitted
