Report City Engineer

El Paso Texas. March 18th 1892

To The Hon City Council of El Paso Texas

Gentlemen:

In the matter of Sewer extention, through Block five (5) in Satterthwaite addition, refered to me at your last regular meting, I have to report, that said extention can be made in one of two ways. 1st By taking off a lateral from the Sewer line through Block one (1) on Missouri St, and running up Missouri Strut to Upson Avenue, thence on Upson to the Alley in said Block 5 and thence up said Alley to the head of the Block, there to connect with the Flush tank, now on the Boulevard; or 2nd, To extend the line now terminating in the Alley just East of Mr Saml Schutz's store through Blocks 18 and 19 of Mills Map, and then in to the Alley in Block 5. This latter extention is the proper one to make with a view to future usefulness, but the cost of cutting through the hills in Block 18 and 19 will prohibit this extention until those hills are hauled away as they are now being.

The extention by the first route will cost from $325.00 to $350.00, there being 990 feet of pipe to lay, But to get pipe laid down here at the usual price, it will be necessary to order a car load of about 11000 feet of pipe, so that the present actual cost will be $400.00 to $425.00.

Contract.

State of Texas }
County of El Paso }

Whereas, the City of El Paso proposes to construct a leve or embankment in said city, extending along, and near the Eastern bank of the Rio Grande from at or near the point where said bank is intersected by San Francisco Street southerly to at or near where said bank is intersected by Stanton Street of said City; and,

Whereas, the El Paso Irrigation Company by its Receiver, W. de S. Maud, desires to use a portion of said embankment as an outer or western wall of said Company's canal, and in consideration therefor will contribute towards the construction of said leve.

Therefore, this agreement, made this day between the City of El Paso acting by its Mayor, Richard Caples, under the authority of the City Council, party of the first part; and W. de S. Maud, Receiver of said El Paso Irrigation Company, party of the second part.

Witnesseth:

1st That in consideration of the payment hereafter recited, made by said party of the second part, the party of the first part, hereby covenants and agrees to construct, or cause to be constructed, in said city at a cost of not less than Twenty-four Thousand Dollars ($24000) a leve or embankment along or near the eastern bank of the Rio Grande, extending from the point

where San Francisco Strut in said city intersects said bank southerly to the point where Stanton Street intersects said bank, and to build said levee so as the same will have a level crown thirty feet wide at the top, and of sufficient height and strength to prevent the water of the Rio Grande from breaking through or flowing over the said levee; provided that the city shall in no event be liable in damages to the party of the second part, or his assigns, for the overflowing or breaking of said levee.

2nd The party of the first part also covenants and agrees to procure and grant to the said Receiver for said El Paso Irrigation Company, its successors and assigns, a Right of Way for its canal forty-five feet wide along the eastern side of said levee, from the head of said levee at San-Francisco Street southerly to the point where the south line of Eighth Street of said city intersects said levee; and also grants to said Receiver for said El Paso Irrigation Company, its successors and assigns the authority, right and privilege of connecting to the upper or northern end of said levee the revetments and headworks of its canal; and also hereby confirms and ratifies to said Receiver for said El Paso Irrigation Company, its successors and assigns, all the rights, franchises, privileges and immunities heretofore granted by said city to said El Paso Irrigation Company.

3rd The party of the first part also agrees and binds itself that in the construction of said levee it will take or cause to be taken from the excavation required for the canal of said Irrigation Company all the sand and earth needed in the construction of said levee, which lies opposite or adjacent to the excavation, and within a one hundred and fifty foot haul; and, provided, that the excavation shall not be made below or outside of the width of the canal.

4th The party of the second part in consideration of the agreement, covenants and undertakings hereinbefore entered into by said party of the first part, hereby agrees to pay the said City Eight Thousand Dollars ($8000) to be appropriated toward the cost of constructing said levee, and immediately upon the due execution of this contract to deposit said sum to

the credit of the City Treasurer of the City of El Paso; and also covenants and agrees to construct or pay for, as said City may require, either a railroad or wagon bridge across said canal at the upper or northern end of said levee; provided, that the cost of said bridge shall not exceed Five Hundred Dollars ($500).

Witness our hands and the seal of said City, this, the 18th day of March A.D. 1892.
