MEMORANDUM

DATE: January 22, 2008

TO: The Honorable Mayor and City Council
Joyce A. Wilson, City Manager

FROM: Arturo Rubio, Planner

SUBJECT: **ZON07-00104**

The City Plan Commission (CPC), on October 4, 2007, recommended (7-0) **APPROVAL** of a request to remove condition number 2 placed on property by a contract in ordinance number 7054 dated August 12, 1986.

2. *(c) The property owners will be required to construct a 6 foot high rockwall along the southerly property line of the triangle property and shall be built from the finished grade of the S-D zoned property. The property owners will also be required to extend the existing rear rockwall abutting Lots 34 and 35-38, Block 111, Vista Del Sol Unit 20, to a point where the rockwall along these rear property lines will be 6 feet above the finished grade of the abutting S-D zoned property.*

The CPC found that removing condition is in conformance with The Plan for El Paso and the proposed use is in conformance with the Year 2025 Projected General Land Use Map. The CPC also determined that the removal of condition would not impact the best interest, health, safety and welfare of the public in general, that the proposed use is compatible with adjacent land uses, and the removal of condition will have no effect on the natural environment, social economic conditions, and property values in the vicinity and the city as a whole.

The Development Coordinating Committee (DCC) recommended denial of request on September 12, 2007 finding that the reduction of a six foot high rock wall requirement condition would adversely impact abutting property owners. However, the City Plan Commission (CPC) believed that request to reduce rock wall requirement would not adversely impact golf course and recommended approval of request on October 4, 2007. Applicant will also be required to request removal of rock wall requirement administratively through zoning coordinator as screening rock wall is a zoning district requirement.

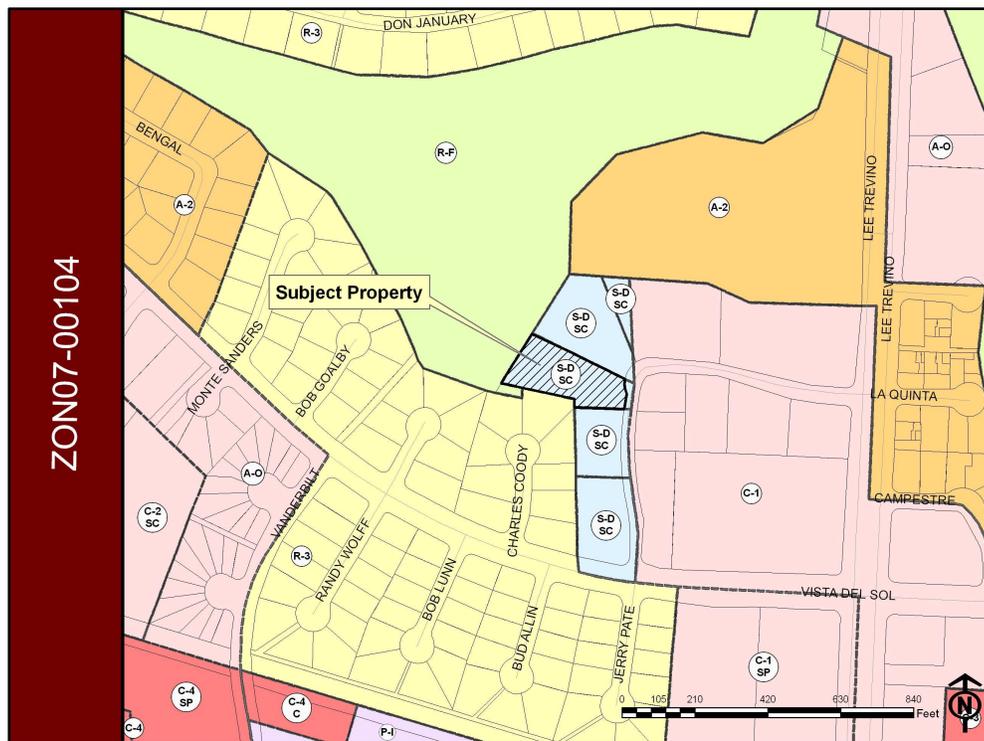

There were no letters of support or opposition to this request.

ZON07-00104

Application Type: Zoning Condition Amendment/Release
Property Owners: Talmar Medical Properties L.P.
Representative: Guillermo Barajas
Legal Description: A Portion of Lot 1, Block 1, Trevista Sol, City of El Paso, El Paso County, Texas
Location: 11155 La Quinta Place
Representative District: 7
Area: 0.9177 acres
Present Zoning: S-D/sc (Special - Development/special contract)
Present Use: Medical Clinic
Request: Release of condition 2.c. from a contract dated August 12, 1986
Recognized Neighborhood Associations Contacted: East Side Civic Association
Public Response: None
Surrounding Land Uses: **North:** S-D /sc **South:** R-3 **East:** C-1 **West:** R-F
Year 2025 Designation: **Mixed Use** (East Planning Area)

General Information

The applicant requests the release of condition 2. (c) in Ordinance 7054 dated August 1986. Release of this condition on the subject property will permit the reduction in height of a 6 foot rockwall required along S-D rear property line .

The condition considered to be released is as follows:

2. (c) *The property owners will be required to construct a 6 foot high rockwall along the southerly property line of the triangle property and shall be built from the finished grade of the S-D zoned property. The property owners will also be required to extend the existing rear rockwall abutting Lots 34 and 35-38, Block 111, Vista Del Sol Unit 20, to a point where the rockwall along these rear property lines will be 6 feet above the finished grade of the abutting S-D zoned property.*

The conditions were imposed in August 1986 as part of a contract amendment. The original contract was dated December 2, 1980. Conditions apply to the entire S-D zoned property and have been required of all adjacent property as it is developed. The 6 foot screening rock wall is also an S-D zoning district requirement and if contract condition is removed applicant will also be required to remove requirement administratively through zoning coordinator.

Staff Recommendation

The Development Coordinating Committee (DCC) unanimously recommends **Denial** of this request.

The recommendation is based on the following:

- **The Plan for El Paso City-Wide Land Use Goals** recommends that El Paso “provide a pattern of commercial development which best serves community needs and which complement and serve all other land uses.”
- **The Year 2025 Projected General Land Use Map** for the East **Planning** Area designates this property for Mixed land uses.
- Release of the condition on the subject property may permit reduction in height of the required screening wall and will impact abutting property owners.

Findings

The Commission must determine the following:

1. Will the release of this condition protect the best interest, health, safety and welfare of the public in general?
2. What is the relation of the proposed change to the city’s Comprehensive Plan?
3. Will the proposed development be compatible with adjacent land uses?
4. What effect will this have upon the natural environment social and economic conditions and property values in the vicinity and in the city as a whole?
