DEPARTMENT HEAD'S SUMMARY FORM**

DEPARTMENT: Traffic-Engineering

AGENDA DATE: February 9, 2010

CONTACT PERSON NAME AND PHONE NUMBER: Ted Marquez, 541-4050
Kimberly Forsyth 541-4631

Terrence Freiburg, Purchasing Manager, 541-4313

DISTRICT(S) AFFECTED: ALL

SUBJECT:

Award Bid Solicitation No. 2010-087

Speed Humps and Speed Cushions for use in the Neighborhood Traffic Management Program.

BACKGROUND / DISCUSSION:

Traffic-Engineering has reviewed the above subject-bid and recommends that the contract be awarded to Traffic Logix for an estimated annual amount of \$93,480.00. Traffic Logix is the lowest responsive and responsible bidder. Contract is for a term of 36 months (3 years). Total contract amount is \$280,440.

No Option to extend the contract is offered.

PRIOR COUNCIL ACTION:

Solicitation No. 2006-184, Speed Humps, was awarded to Tag International Inc., on 11/7/06 for \$58,040.50. This contract was a fixed-price, single (one-time) purchase.

AMOUNT AND SOURCE OF FUNDING:

Funding Source(s) is/are:

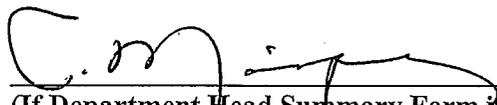

14400100-508027-27265-PCP09ST004

BOARD / COMMISSION ACTION:

PROJECT FORM

DATE: January 29, 2010

PROJECT: SPEED HUMPS AND SPEED CUSHIONS
SOLICITATION NO: 2010-087
DEPARTMENT: Engineering
FUNDING SOURCE: FY 2009 Certificates of Obligation
REPRESENTATIVE DISTRICT(S): All

RECOMMENDATION: Vendor: Traffic Logix
Spring Valley, New York
Item: All
Amount: \$93,480.00 estimated annual expenditures

Engineering-Traffic Division and Financial Services-Purchasing Division recommend award to the lowest responsive, responsible Bidder.

This is a thirty-six (36) month requirements type contract. No option to extend the contract is offered. A prompt payment discount of 1% is offered for payment within 10 days of receipt of properly prepared invoice.

The cost under this requirements contract is only an estimated minimum value. The actual cost of this contract may be higher or lower than the total estimated minimum value and will be the sum total at the end of the contract term, so long as increased funds are appropriated in the budget.

SERVICE SOLUTIONS SUCCESS

ENGINEERING DEPARTMENT

The Neighborhood Traffic Management Program utilizes speed humps or cushions on residential streets only after other options for physical traffic-calming have been considered and eliminated, primarily due to the design and/or existing condition of the street to be effected. They can also be used as a temporary measure while other options are being designed and constructed. The criteria to use speed humps /cushions are:

- Speeding is occurring mid-block and other mid-block treatments (chokers, chicanes, median islands) are not possible due to width of the street or interference with existing driveways, or are not desired by residents due to issues such as loss of on-street parking.
- Street has no existing curb to connect a choker or curb extension.
- Low volume streets - less than 3,000 ADT.
- Additionally, speed cushions are used instead of humps when the street is a bus route or regular emergency route, and when drainage would be obstructed by other physical measures.

They are also used in combination with other measures, after notification of the residents. Speed humps or cushions have been installed on the following streets:

- Borrett
- Lakehurst
- Janway
- Chito Samaniego
- Quail
- Titanic
- Le Conte
- Crown Point

We are currently pending installation on these streets:

- Kinross
- Cardigan
- Rosinante (to be funded by residents)
- El Dorado
- Dale Douglas
- Rosedale
- Bandolero
- Aztec

The Traffic-Engineering Department requests approval of this bid to restock inventory in order to proceed with the remaining and expected future installations.
