Application Type: Amendment to the Text of Section 20.04.380 (Application Requirements)
Representative District: All

General Information:

The purpose of the amendment is to remove the requirement on zoning applications for the applicant to submit a conceptual site plan.

The CPC has discussed on numerous occasions the challenges associated with conceptual site plans. The CPC and the public tend to assume and act as if the rezoning case is (1) first of all to a specific use when, in fact, it is to all the uses listed in a category and 2) that the conceptual site is what is actually going to get built.

This request to amend the code removes the misleading requirement for a conceptual site plan to be submitted at the time of a zoning application. It does not address or change in any way the requirements in other sections of the zoning code or in existing special contracts for the submittal and approval of a detailed site plan.

Staff Recommendation:

The Development Coordinating Committee (DCC) unanimously recommends **APPROVAL** of this request for the amendment to the text of Title 20 (Zoning) Chapter 20.04 (Administrative Review Procedures) Section 20.04.380 (Application Requirements) to remove the requirement for a conceptual site plan.
