BACKGROUND / DISCUSSION:

The City Engineer has determined that the use of Third-party residential plan review and inspection services allows the City to better provide a timely response to the needs of Developers/Builders during the planning and construction of residential housing units. The funding source for these services will come from an incremental increase in the cost of each residential construction permit being managed by a Third-party service provider. The additional cost will range from approximately $450.00 to $650.00 per residential permit for new homes. The city will collect the fee and then pay the Third-party inspection firm for completing each phase of the projects from plan review through construction. Therefore, this service will be paid for by the Developer/Builders at permit issuance. The City will absorb the administrative work and or costs required to review invoices and make timely payments to the Third-party firms. Quality assurance will be accomplished through an on-going audit process by the Chief Building Inspector.

The Engineering & Construction Management is recommending the award of the above bids. The five vendors named above were all that submitted offers and capable of providing the required services. The bid process provided a means for the City to determine the actual cost of such services and the City is planning to enter into agreements with all five (5) firms. The offerors have submitted the data required to evaluate the capability of all firms and all were determined to be qualified; therefore, providing the Best Value to the City. The City provided the 2,000 permit figure for the purpose of comparing offerors and guarantees no set number of inspections.

Five companies submitted offers to become the City's contract for Third Party Residential Building Inspection and Plan Review Services. These companies were evaluated by an evaluation committee comprised of members from the Engineering and Construction Management Department. A member of the Purchasing Division oversaw the solicitation process.

SELECTION SUMMARY:

The email (Purmail) notification was sent out on 12/13/2011. Total of four bidders with three local vendors were solicited. Five responses were received with three being local vendors.

STATE OF TEXAS	)	**THIRD PARTY PLAN REVIEW AND INSPECTION SERVICES AGREEMENT**
	)	
COUNTY OF EL PASO	)	

THIS Third Party Plan Review and Inspection Services Agreement (the "Agreement") is executed effective for all purposes as of this 27th day of March, 2012 by and between the CITY OF EL PASO, a home rule municipal corporation of the State of Texas, (the "City") and ECM INTERNATIONAL, INC., a Texas Corporation, (the "Third Party Service Provider").

IN CONSIDERATION of the mutual promises set forth in this Agreement, and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereto agree as follows:

1. Scope of Services. The Third Party Service Provider agrees to provide plan review and building inspection services for residential projects. The plan review and inspection services to be conducted are limited to those services delineated in Section 12 below and may include plan review and/or inspections related to the City's own municipal projects and/or plan review and inspection of private sector projects for which the building official determines that third party services would be appropriate. Plan review and inspections shall be for the purpose of determining if applicable zoning and building codes adopted by the City have been met as to building construction.

1.1 Plan review and inspection services shall be conducted in accordance with City policies and procedures, all applicable City codes and Exhibit A - Building Permit & Inspections Processes attached to the City's Request For Qualifications, Third Party Residential Building Inspection and Plan Review Services, Solicitation No. 2012-~~130R~~ 103R ("Solicitation No. 2012-~~130R~~ 103R"). Solicitation No. 2012-130R is incorporated by reference as if fully set forth herein. CSO CSO

1.2 Any reference in this Agreement to Third Party Service Providers shall apply equally to individuals and companies engaged in such services. Any reference in this Agreement to Third Party Service Providers shall also apply equally to individuals and companies engaged in plumbing inspections services as well as building inspection services.

2. Non-exclusive Agreement. This Agreement is non-exclusive. The City shall be entitled to enter into plan review and inspection services agreements with other properly selected individuals or businesses that qualify to provide plan review and inspection services.

3. Pre-requisite to Agreement. The City shall comply with applicable state procurement laws as a prerequisite to entering into this Agreement. The Third Party Service Providers shall comply with applicable state and local license, certification and other qualification requirements as a prerequisite to entering into this Agreement.

4. Requirements of Third Party Service Provider. In addition to the prerequisite qualifications required prior to entering into this Agreement, the Third Party Service Provider also agrees to comply with the following requirements:

4.1 The Third Party Service Provider, including each individual inspector employed by the Third Party Service Provider and performing plan review and inspection services for the City, shall at all times during the performance of this Agreement maintain the licenses, certifications and other standards required by the El Paso City Code and the State of Texas, as amended, to conduct plan review and inspections.

4.2 The Third Party Service Provider shall not be owned, operated or controlled by an owner, builder or trade person regulated under the construction codes and laws of the State of Texas and/or the City.

4.3 The Third Party Service Provider shall remain impartial in its plan reviews and inspections and determination of zoning and building code compliance.

4.4 The Third Party Service Provider shall not charge fees for plan review or inspections or accept any compensation or anything of value other than the payment required pursuant to the terms of this Agreement, including but not limited to compensation or anything of value from any person or entity that seeks plan review or applies for a building permit, any owner, contractor, developer or builder or from a person or entity with an interest in the plans being reviewed or the construction work being inspected by the Third Party Service Provider.

4.5 The Third Party Service Provider shall have the financial resources to act independently.

4.6 The Third Party Service Provider shall not participate in the preparation of plans being reviewed or construction or sale of structures being inspected by the Third Party Service Provider or its employees.

5. Discretion to Assign Inspection. The Building Official shall make plan review and building inspection assignments. If the City has entered into agreements with multiple Third Party Service Providers for plan review or inspection, the Building Official shall make the plan review or inspection assignments on a rotating basis except that a builder or owner of plans to be reviewed or a structure to be inspected may request the assignment of a specific Third Party Service Provider that has entered into an agreement with the City for the performance of such reviews and inspections. Upon payment of the applicable fee for the requested Third Party Service Provider, every effort shall be made by the City to honor the builder or owner's request for a specific Third Party Service Provider. However, it is understood that the Building Official has sole discretion regarding the assignment of Third Party Service Providers and may assign any qualified and properly selected Third Party Service Provider to any plan review or building inspection.

5.1 Selection of Individual Inspectors. When the Third Party Service Provider is a company with multiple inspectors who are qualified, as described in this Agreement, the assignment by the

Building Official shall be to the business entity entering into this Agreement. Such business entity shall select the individual inspector who shall perform the plan review or building inspection services. Designation of the individual inspector shall be made prior to scheduling plan review or inspections with the builder. The Third Party Service Provider shall not coordinate the selection of individual Third Party Service Providers with the builder or any other person or entity that has an interest in the plans to be reviewed or the construction to be inspected or allow such person or entity to designate or provide approval of the person who shall be the reviewer or inspector.

6. Coordination with Builder. Upon accepting an inspection assignment from the Building Official, the Third Party Service Provider may coordinate a plan review or inspection schedule with the builder without further approval of the Building Official.

7. Right to Decline an Assignment. The Third Party Service Provider may decline an assignment from the Building Official if the qualified plan reviewers or inspectors employed by the Third Party Service Provider are unavailable or the workload for such Third Party Service Provider is of a quantity that quality plan review or inspection services could not be provided. This Agreement shall not be terminated on the basis that the Third Party Service Provider declined assignments under this Agreement.

8. Review, Audit and Liability. The City reserves the right to send a representative to accompany the Third Party Service Provider during plan review or to the inspection site to observe the plan review and inspection methods and code interpretation by the Third Party Service Provider. Such representative shall not supervise the Third Party Service Provider. However, the City's Building Official shall have the authority to stop any work in progress that does not meet the applicable zoning and building codes and the interpretation of such codes by the City. The presence of a City representative, as described in this paragraph, as well as any order to stop work by the City, does not relieve the Third Party Service Provider of any liability for corrective measures that the City may have missed and that should have been performed or taken that would have prevented any malfunction and or damages to property or personal injuries. The City may perform audits of the plan review or daily inspections of any Third Party Service Provider as set forth in Title 18.02 of the El Paso City Code, as amended.

8.1 Records Review. Third Party Service Provider's records subject to review shall include but not be limited to records which, in the City's discretion, are connected with the Third Party Service Provider's work for the City and shall be open to inspection and subject to review and/or reproduction by the City's agent or its authorized representative to the extent necessary to adequately permit evaluation and verification of the Third Party Service Provider's compliance with Agreement requirements and to evaluate and verify all costs associated with the Project. Third Party Service Provider agrees to provide the City with extracts of data files in computer readable format upon request by the City. Records review as described herein may require inspection and photocopying of selected documents from time to time at reasonable times and places. Third Party Service Provider shall be required to keep such books and records available for such purposes **for at least two (2) years** after the performance under this Agreement ceases. Nothing in this provision shall affect the time for bringing a cause of action nor the applicable statute of limitations.

8.2 Daily Records. The Third Party Service Provider shall account to the Building Official for all plan reviews and daily inspections conducted or stop work orders issued by the Third Party Service Provider at a site. The Third Party Service Provider shall keep records in accordance with the requirements of Solicitation No. 2012-130R 1038-12 for all plan reviews and inspections conducted which detail the results of each plan review and inspection. Such records shall contain, but not be limited to, the building permit number, date of issuance, the address of the project, and the type of construction inspection conducted, and a list of non-complying items that require corrections. Plan review and inspection results shall be entered daily into the Engineering and Construction Management Department's electronic building permit system by the Third Party Service Provider.

9. Warranties. Third Party Service Provider Warrants that:

9.1 All licenses and certifications required by the City's Codes and the laws of the State of Texas to perform the work required in this Agreement, are current and that the Third Party Service Provider, including each individual plan reviewer and inspector employed by the Third Party Service Provider and performing plan review or building inspection services for the City, is qualified to perform the work.

9.2 Third Party Service Provider shall perform the plan review or inspection services required in this Agreement expeditiously in accordance with sound and generally accepted inspection principals and standards and in a professional and workmanlike manner.

9.3 The Third Party Service Provider shall not in any fashion discriminate in the performance of this Agreement against any person because of race, color, religion, national origin, sex, age, disability, political belief, sexual orientation or affiliation.

10. Term. The term of this Agreement is for three (3) years from the date this Agreement is approved by the City Council for the City of El Paso, with one (1) option to extend for one (1) additional year.

SERVICE SOLUTIONS SUCCESS

Permit-Based Third-Party Residential Building Inspection Services

Solicitation Number 2011-103R

Historical Information

- On May 24, 2011, Council approved the award of Solicitation No. 2011-143, Permit-Based Third Party Residential Complete Plan Review & Building Inspections.

- In this contract, the third party providers were to contract to perform the following tasks:
  - Complete Plan Review
  - Building Inspections (Includes Mechanical & Electrical): Foundation, Framing and Final;
  - Plumbing Inspections

- Shortly after the contracts were executed, several problems arose regarding some of the Third Party provider's responsibilities associated with the Plan Review duties.

- These issues enlightened City staff to the fact that during the solicitation process sufficient clarification of Plan Review duties was not provided to Third Party providers.

Historical Information

- In October of 2011, City staff met with members of the El Paso Homebuilders Association regarding concerns over the scope changes in the new contract from previous contracts.
  - The most notable issue was the added task of “plan review” and specific struggles contractors were facing in meeting this requirement.
- As a result of this meeting, and other considerations, on October 18, 2011 the City sent notification to all contracted third party providers, (and to the El Paso Homebuilders Association), of four immediate considerations on these contracts:

1. The requirement for a complete plan review, including zoning and land development reviews was suspended immediately, leaving the requirement for architectural plan review only in place.

Historical Information

2. The City stated it's intention to evaluate and clarify the Third Party's contractual responsibilities and committed to redeveloping a scope of services to solicit a new contract.

3. The City informed the Third Party providers that a new solicitation would be forthcoming that would provide greater scope specificity concerning plan review allow for expanded duties and more flexibility regarding service provision.

4. The City informed the Third Party providers that it remains committed to permit the building of residential homes under the Third Party scheme as fast as practical in an appropriate and equitable manner.

Contract Scope of Work

Three Core Services provided under this new solicitation:

1. **<u>Direct Services to the City</u>** – This is a new provision in the contract that will allow for a contractual relationship between the City, as the primary client, and the Third Party providers, for a complete plan review and building inspections.

   This will be valuable tool to assist the City during periods when a significant backlog of plan reviews negatively impacts the City's ability to meet the five day turnaround period to produce building permits.

Contract Scope of Work

2. **<u>Indirect Services to the City</u>** – Allows for Third Party Providers, acting as an agent for the City, to contract with local Builders to provide either Limited Plan Review, or include Zoning Review, Land Development Review, and Building Inspections services.

   This is the traditional model for Third Party services that was re-written to include a more descriptive explanation of the key requirements of plan review.

3. **<u>Supplemental Services to the City</u>** – A new provision that will allow the City to contract with the Third Party providers to perform services such as swimming pool inspections, solar panel inspections, and other minor inspections on demand.
