### **18.50.104.3 Inspections.**

The Official shall make all of the required inspections, or shall accept reports of inspection by approved agencies or individuals. All reports of such inspections shall be in writing and be certified by a responsible officer of such approved agency or by the responsible individual. ### **18.50.104.4 Right of entry.**

**A.** Whenever necessary to make an inspection to enforce any of the provisions of this Code, or whenever the Official or his authorized representative has reasonable cause to believe that there exists in any building or upon any premises any condition or code violation which makes such building or premises unsafe, dangerous or hazardous, the Official or his authorized representative may enter such building or premises at all reasonable times to inspect the same or to perform any duty imposed upon the Official by this Code, provided that if such building or premises be occupied, he shall first present proper credentials and request entry; and if such building or premises be unoccupied, he shall first make a reasonable effort to locate the owner or other persons having charge or control of the building or premises and request entry. If such entry is refused, the Official or his authorized representative shall have recourse to every remedy provided by law to secure entry.

**B.** When the Official or his authorized representative shall have first obtained a proper inspection warrant or other remedy provided by law to secure entry, no owner or occupant or any other persons having charge, care or control of any building or premises shall fail or neglect, after proper request is made as herein provided, to promptly permit entry therein by the Official or his authorized representative for the purpose of inspection and examination pursuant to this Code.
