AN ORDINANCE AMENDING TITLE 20 (ZONING), CHAPTER 20.14 (OFF-STREET PARKING, LOADING, AND STORAGE STANDARDS), AND APPENDIX C (MINIMUM PARKING REQUIREMENTS) OF THE EL PASO CITY CODE, TO ADD MAXIMUM PARKING STANDARDS AND TO AMEND OTHER PROVISIONS FOR VEHICLE PARKING REQUIREMENTS. THE PENALTY IS AS PROVIDED FOR IN CHAPTER 20.24 OF THE EL PASO CITY CODE.

WHEREAS, Title 20 (Zoning) of the El Paso City Code was adopted to promote the health, safety, morals and general welfare of the community; and

WHEREAS, Title 20 (Zoning) of the El Paso City Code contains regulations concerning the minimum number of parking spaces required but does not contain provisions regulating the maximum number of parking spaces allowed; and,

WHEREAS, the City desires to establish parking maximums in addition to parking minimums as an important Smart Growth tool to reduce the amount of off-street parking throughout the City, encourage the use of permeable surfaces to reduce runoff, and to promote the general welfare of the community; and,

WHEREAS, the City Council adopted a Resolution on January 6th 2011 detailing the relationship between the built environment and obesity and directed the City Manager to recommend zoning code changes to increase opportunities for physical activity; and,

WHEREAS, the Development Coordinating Committee and the City Plan Commission have reviewed and recommended the adoption of changes to Title 20 (Zoning) to provide for standards for parking maximums; and,

WHEREAS, the El Paso City Council, having considered the recommendations and held a public hearing at which the public was allowed to comment on the proposed ordinance amendments, finds that the adoption of the regulations as submitted will further protect and provide for the public health, safety, morals and general welfare of the community, and will carry out the purpose and spirit of the policies expressed in The Plan for El Paso; and

WHEREAS, the El Paso City Council finds the regulations established by this amendment are designed to prevent the parking regulations from adversely affecting adjoining property owners in an unreasonable manner;

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF EL PASO:

SECTION 1. That Title 20 (Zoning) Chapter 20.14, Off-street Parking, Loading and Storage Standards, Section 20.14.020, Scope, Paragraph A, Applicability, Paragraph D, Use of Excess Spaces, and Paragraph E, Failure to Maintain Required Number of Spaces, of the El Paso City Code is amended as follows:

20.14.020 Scope

A. Applicability. The off-street parking requirements of this chapter shall be applicable to all uses, except as modified herein, including:

1. New development, including new buildings or facilities;
2. Addition to or enlargement of an existing building or facility which does not exceed 50% of the original square footage;
3. Change of use of an existing facility;
4. Change of use and hours of operation of the property generating the parking need or the shared parking property of a shared parking arrangement.

D. Use of Excess Spaces. Where the number of off-street parking spaces provided at a site exceeds the maximum number of off-street parking spaces allowed under the Table of Parking Requirements and Standards, the excess parking spaces may be utilized for another permitted use or purpose in accordance with this chapter, including shared parking arrangements, or agreed to off-street parking for another use. Excess parking spaces for new development shall be constructed and landscaped in accordance with the standards of this chapter.

E. Failure to Maintain Required Number of Spaces. Failure to maintain the minimum required number of off-street parking spaces may, after written notice to the owner or operator, result in the revocation of the certificate of occupancy for the building or facility in addition to other penalties as described in Chapter 20.04.

SECTION 2. That Title 20 (Zoning) Chapter 20.14, Off-street Parking, Loading and Storage Standards, Section 20.14.050, Required Parking, of the El Paso City Code is amended as follows:

20.14.050 Parking Requirements and Standards

A. Parking. Table of Parking Requirements and Standards, subsection C of this Title establishes the minimum and maximum number of motor vehicle parking spaces unless otherwise stated, and minimum bicycle parking spaces required for the uses indicated. The City Manager or designee shall be authorized to interpret and establish the minimum and maximum parking regulations for uses not shown in the Table of Parking Requirements and Standards, subsection C.

B. Method of Computation. Calculations to compute the maximum number of required parking spaces shall be based upon the following formulae:

1. Where the calculation of the required parking results in fractions of spaces, the number of spaces shall be rounded to the next highest whole number for fractions of 0.5 or greater.
2. For new building(s) or development with more than one use, the parking maximum shall be determined by the sum of the number of parking spaces allowed for each individual use computed separately. A shared parking arrangement may be approved for a mixed use building, shopping center, or facility where the uses have different hours of

operation or parking usage, in which case the parking requirement shall be based upon the calculation for the individual use or group of simultaneous uses that result in the largest number of off-street parking spaces required.

3. For new building(s) or development with both permitted uses and accessory uses, the parking maximum shall be determined by the sum of the maximum number of parking spaces allowed for each individual use, permitted or accessory, computed separately. A shared parking arrangement may be approved for a site where the permitted uses have different hours of operation or parking usage from those of the accessory uses, in which case the parking requirement shall be based upon the calculation for the individual permitted use or group of simultaneous permitted uses that results in the largest number of off-street parking spaces required.

4. Parking maximums for an addition to or enlargement of an existing building or facility shall be calculated on the basis of the addition or enlargement and shall be added to the parking maximum for the existing building or facility prior to the expansion. In the event the existing parking provided for the existing building or facility is nonconforming with the requirements of this chapter, refer to Chapter 20.22 (Nonconforming Situations).

5. For a change of use(s) of an existing building or facility, or a portion thereof, the parking requirements shall be calculated on the basis of the sum of the current code required parking as applied to the changed use(s), plus the prior code requirements applied to the unchanged portion(s) of the existing building or facility; or on the basis of the current code for the entire building or facility, whichever is less.

6. Where the parking calculation is determined by the gross floor area (GFA) of the building or facility, the GFA shall be measured to the exterior of the walls for every occupied floor. GFA of a building or facility shall not include areas used solely for off-street parking of motor vehicles or bicycles and associated driveways, and shall not include areas reserved for off-street loading berths.

7. Where the parking calculation is determined by the number of seats or the number of occupants of a building or facility, the occupant load shall be per Title 18, Building and Construction, Chapter 18.08.

8. The GFA of a restaurant, nightclub, bar or cocktail lounge with an outdoor seating area shall also include the gross floor area of such outdoor seating area.

9. The GFA of a shopping center or other similar uses shall be based upon the entire shopping center, including the gross floor area of covered atrium and mall areas. The GFA of a shopping center shall not include the open well areas of the upper levels of a multi-story atrium or mall.

10. Up to five percent of the minimum required vehicular parking spaces may be substituted with motorcycle parking spaces at the rate of one vehicular parking space for each three-motorcycle parking spaces provided. Motorcycle parking spaces shall be a minimum of seventy-five inches by thirty inches each exclusive of access aisles.

C. Table of Parking Requirements and Standards. The parking standards and requirements are established in the Parking Requirements and Standards Table, located in Appendix C, adopted in its entirety and incorporated herein by reference, and unless otherwise provided for herein, all parking shall comply with the parking table.

D. Off-street Parking. Off-street parking regulations shall not apply to properties in the Improvement District No. 3, established by Ordinance 736 and dated April 3, 1952. The boundaries of Improvement District No. 3 shall also include all property designated under the Downtown 2015 Plan.

E. Excess Parking. Excess parking shall be subject to the following requirement:

1. In addition to the landscape requirements of Title 18.46 (Landscape), one tree for every five (5) spaces in excess of the maximum parking requirement shall be required and shall be placed within the entire parking area to provide for even canopy coverage or along the parkway to create a visual buffer between the parking area and the street.

SECTION 3. That Title 20 (Zoning) Chapter 20.14, Off-street Parking, Loading and Storage Standards, Section 20.14.060, Shared parking, of the El Paso City Code is amended as follows:

20.14.060 Shared parking

A. Submission of Request. Whenever a shared parking arrangement is proposed to comply with the requirements of this chapter, the shared parking arrangement shall be subject to the prior approval of the City Manager or designee and shall not require a special permit for off-site, off-street parking. To obtain approval of a shared parking arrangement, the owner or operator of the property on which the parking need is generated shall submit an application containing the following information to the City Manager or designee. The fee for processing the application shall be as set by City Council resolution.

2. The maximum number of parking spaces, in accordance with this chapter, for the use(s) at the shared parking property, the number of parking spaces provided, and the hours of operation of the use(s).

B. Conditions for Approval. A shared parking arrangement shall be approved only when the arrangement meets all of the following conditions:

1. The parking arrangement complies with this chapter;

2. The owner or operator demonstrates that the use(s) of the property generating the parking need and the use(s) of the shared parking property are non-simultaneous or that the proposed shared parking spaces are in excess of the parking required for the use(s) of the shared parking property, or a combination of each option;

3. The shared parking property is within three hundred feet of the property generating the parking need and the access is provided between the two properties;

4. The parking area is compatible with the general development of the neighborhood and does not adversely affect the use of adjacent properties; and

5. The required information has been satisfactorily submitted.

C. Modification of Arrangement. A modification of a shared parking arrangement shall be subject to the same standards for review and approval by the City Manager or designee as the original arrangement.

D. Termination of Arrangement. The termination of a shared parking arrangement agreement may, after written notice to the owner or operator, result in the revocation of the certificate of occupancy for the building or facility of the property generating the parking need and which does not meet the minimum parking regulations, in addition to other penalties as described in this title.

E. Sharing with City Owned Property. A shared parking arrangement in which the city is the owner of the shared parking property shall be permitted provided the owner complies with all of the requirements of this section, and additionally obtains a lease from the city for such use of city property.
