Any future conveyance of the Property shall contain the restrictions, conditions and covenants and shall embody this Agreement by express reference; provided, however, this Agreement shall not be binding on, and shall not create any encumbrance to title as to, any end-buyer of a fully developed and improved lot within the Property, except for land use regulations that may apply to a specific lot.

Remedies: This Agreement shall be enforceable in any court of competent jurisdiction by any of the Parties or by an appropriate action at law or in equity to secure the performance of the restrictions, conditions and covenants herein contained.

If the City or the Owner determines that the invalid provision is material, then, if the City has made such determination, the City shall have the option to disannex the Property, and if the Owner has made such determination, the Owner shall have the option to terminate this Agreement. Such judgment or decree shall relieve the City and the Owner from performance under such invalid provision of this Agreement.

Entire Agreement: This Agreement contains the entire agreement of the Parties, and there are no other agreements or promises, oral or written, between the Parties regarding the subject matter of this Agreement. This Agreement may be amended only by written agreement signed by the Parties. By approving the execution of this Agreement, the City Council of the City, and the Public Utilities Board of the El Paso Water Utilities, delegate to the City Manager of the City, and to the President/CEO of the El Paso Water Utilities, the authority, without any further action being required of the City Council or of the Public Utilities Board, to execute such amendments of or extensions to this Agreement as they may consider advisable, and consistent with the provisions of law.

Governing Law, Jurisdiction & Venue: This Agreement shall be governed by and construed in accordance with the laws of the State of Texas, as it applies to contracts performed within the State of Texas and without regard to any choice of law rules or principles to the contrary. General Information:

The approval of the attached development agreement is required to be provided water and sewer service for the subject property as permitted by the Texas Local Government Code Chapter 212, Subchapter G. The property consists of 91.8278 acres of land and is currently farmland and residential. The conceptual site plan proposes 118 residential lots and a 1.2018 acre park. Access is proposed via Strahan Road. The subject property is approximately 2,512.6 feet from the City limits and is not contiguous to the City limits. The subject property will not be annexed due to it not being contiguous with the City limits.

Staff Recommendation:

The Development Coordinating Committee (DCC) unanimously recommends **APPROVAL** of this request for a development agreement.

The recommendation is based on the following:

- **The Plan for El Paso City-Wide Land Use Goals** recommends that El Paso “Evaluate annexation requests to determine feasibility and impact on existing City services and fiscal resources.”
- **The Year 2025 Projected General Land Use Map** for the West ETJ designates this property for Residential uses.

In addition, recommendation for approval of the development agreement was based on the overall long-term benefits to the City versus the short-term impacts. The development agreement would accomplish the following:

- ensure proper land use relationships with high standards of construction through zoning and building codes;
- protect the City’s growth ability in the West ETJ;
- implement the long range goals of the City’s Comprehensive Plan; and,
- require applicants to share in the City’s hard and soft infrastructure costs to serve the property (not otherwise allowed under the Impact Fee Statute for properties within the City Limits for off-site systems).

Findings:

The Commission must determine the following:

1. Will this development agreement protect the best interest, health, safety/welfare of the public in general?
2. Will single-family and commercial be compatible with adjacent land uses?
3. What is the relation of the proposed development agreement to the city’s Comprehensive Plan?
4. What effect will the development agreement have upon the natural environment social and economic conditions and property values in the vicinity and in the city as a whole?
