Re: Purchase of ammunition. The El Paso Police Department needs to purchase additional ammunition to conduct tactical training and state mandated firearms qualifications.

The El Paso Police Department recommends purchasing this ammunition. This is practice ammunition used by the officers to qualify with primary and secondary weapons as per TCLEOSE rules. The ammunition is also used for practice firing.

1. *Is there an urgent need for the product/service? In other words, is time of the essence?*
This ammunition is of the highest priority. There are approximately 600 officers in patrol which must remain tactically trained and in compliance of firearms qualifications. Purchasing ammunition is a constant necessity for the Department and since delivery time of new ammunition can be quite prolonged, we need to order this ammunition as soon as possible.
2. *Does the purchase through the Program promote the standardization of equipment?*
Practice ammunition is purchased to as closely as possible simulate the same recoil as DUTY ammunition. Muscle memorization is critical to firearms proficiency.
3. *Does the purchase through the Program support local business? If not, is there a comparable product/service available locally?*
No. There are no vendors locally that can handle this volume of an order. Any vendor would have to go to the same distributor as us and then charge us a higher cost.
4. *Do the available vendors have prior work experience and/or familiarity with the City?*
Yes. We have used Barney's Inc. for almost 5 years and GT Distributors for almost 10 years. On this contract they both happen to be the lowest price for the types and grain of bullets we need to purchase.
5. *Is the pricing reasonable as compared to other similar products/work performed for the City of El Paso in the past or as quoted from other companies?*
Yes. In the past the police department has gone out into the open market and those prices were far more expensive. Therefore, these prices are the most reasonable.
