

CITY OF EL PASO, TEXAS
DEPARTMENT HEAD'S SUMMARY REQUEST FOR COUNCIL ACTION (RCA)

DEPARTMENT: Engineering

AGENDA DATE: May 13, 2008

CONTACT PERSON/PHONE: R. Alan Shubert, City Engineer (X4423)

DISTRICT(S) AFFECTED: Citywide

SUBJECT:

That the City Manager be authorized to sign a two year Professional Services Agreement between the City of El Paso and

1. Professional Service Industries, Inc., a Delaware Corporation, to perform consulting services for a project known as "Geotechnical and Material Testing" for a contract amount not to exceed \$400,000. Funding: Applicable projects are required to fund each task and,
2. Licon Engineering Company Inc., a Texas Corporation, to perform consulting services for a project known as "Geotechnical and Material Testing" for a contract amount not to exceed \$400,000. Funding: Applicable projects are required to fund each task.

(All Districts) [Engineering, R. Alan Shubert, (915) 541-4423]

BACKGROUND / DISCUSSION:

The Architect Engineer Selection Committee met on January 17, 2008 to select three Geotechnical Engineering Firms from the pre-qualified list. The Committee selected three on-call geotechnical firms: AMEC Earth & Environmental, Professional Service Industries (PSI), and Licon Engineering Company. The Council approved the AMEC Earth & Environmental contract on April 8, 2008. This item requests Council action to approve the last two Geotechnical and Material Testing firms up to a maximum dollar value of \$400,000 for each firm. Approval of these last two agreements will give the City a maximum total contracting authority of \$1.2 million for project geotechnical and material testing over the two-year period as specified in the contracts.

Geotechnical and Material Testing is a required component of every construction project. Typically those contracts that call for large quantities of materials also call for more testing so the size of the purchase orders issued to these firms is highly variable. Once a construction contract is approved by Council, the staff will request a testing cost proposal from one of the available Geotechnical and Material Testing firms. The Engineering Department then analyzes the proposal and an estimated total fee for the testing work is established. Geotechnical and Material Testing is not optional as this service is the only way to guarantee that quality roadways and other facilities are constructed and these facilities maximize their useful life for the City.

The City only pays for those tests that are actually done. The negotiated fees for the various types of testing are included in the contract for each firm. There are no provisions for extending these contracts past the two-year duration or increasing the specified maximum contract value.

PRIOR COUNCIL ACTION:

None on this item.

AMOUNT AND SOURCE OF FUNDING:

Funding to be provided by each project requiring service.

In the event of termination by the Owner pursuant to this subsection, the Owner may withhold payments to the Consultant for the purpose of setoff until such time as the exact amount due the Consultant from the Owner is determined.

4.3.3 TERMINATION SHALL NOT BE CONSTRUED AS RELEASE.
