SEAM CHOW - RESUME

I have been in the business of fire protection since 1984. In August 1991, I started my own company. Assurance Fire Protection, LLC have been the authorized distributor for Ansul Incorporated since September 1991. We sell products from portable fire extinguishers to wet chemical kitchen and industrial dry chemical fire suppression systems.

I have a planning license with the State of Texas to plan and design engineered systems like Carbon Dioxide, Inergen, or Sapphire clean agent for different applications. National Institute certifies me for Certification in Engineering Technologies Level III (NICET III) in Special Hazard application.

My company is not only minority and locally owned company, but we are the only fire suppression company that has all the above certification in-house in El Paso.

As to my experience in this industry, we completed a project in 2002 that involve design, installed and certification of twenty-two clean agents fire suppression system for fifteen (15) buildings in Fort Bliss, Texas. At the same time we were also involved with removing and installing new fire alarm system.

As to my personal experience, I have worked in the fire protection industry since 1984 starting from the office as a receptionist and later was promoted to project manager for two-fire protection company before starting my own business in 1991.

Thank you for the opportunity to be of service.

Submitted by,

Seam Chow
