CITY OF EL PASO, TEXAS
REQUEST FOR COUNCIL ACTION (RCA)

DEPARTMENT: ENGINEERING DEPARTMENT

AGENDA DATE: June 3, 2008

CONTACT PERSON/PHONE: Terrence Freiburg, Purchasing Manager, Financial Services, (X-4313)

R. Alan Shubert, P.E., City Engineer, (X-4423)

DISTRICT(S) AFFECTED: 8

SUBJECT:

Bid No. 2008-197
UPPER VALLEY DRAINAGE IMPROVEMENTS PH II (CHARL ANN-OCOTILLO)

BACKGROUND / DISCUSSION:

Recommend contract be awarded to JAR Construction, Inc., as the lowest responsive, responsible bidder meeting specifications, for an estimated contract amount of $1,574,355.80. Contract is for a period of Fifty (50) Consecutive Work Days for Milestone 1 and One Hundred Eight (108) consecutive work days for the entire project.

The construction required to complete this project is to repair the damage caused by Storm 2006. The project consists of replacing and upgrading existing drainage inlets and storm piping to increase the capacity of the storm drain. The drainage infrastructure improvements will minimize drainage problems in the area.

AGENDA DATE: June 3, 2008

Lowest responsive and responsible bidder
CONTRACTOR: JAR Concrete, Inc. dba JAR Construction, Inc.
TOTAL ESTIMATED AMOUNT: $1,574,355.80

RECOMMENDATION:

Discussion and action on the award of Solicitation No. 2008-197 for the Upper Valley Drainage Improvements Ph II, (Charl Ann-Ocotillo) to JAR Concrete, Inc. dba JAR Construction, Inc. for a total estimated amount of $1,574,355.80.

It is requested that the City Manager of the City of El Paso be authorized to sign any contracts or other documents required to effectuate this award.

Work under this unit price contract is only an estimated value and will be ordered, performed, invoiced, and paid by measured quantity. The actual cost of this contract may be higher or lower than the total estimated value and will be the sum total of unit prices at the end of the contract term.

As part of the award of this contract, the City Engineer may, without further authorization from City Council, approve contract changes which are necessary for proper construction of the work and carrying out the intent of the design, which are in accordance with applicable law and which do not make changes to the unit price and increased funds are appropriated in the budget.

This is a low bid, unit-price contract. The Financial Services and Engineering Departments recommend award as indicated to the lowest responsive, responsible bidder.

DESCRIPTION OR EXPLANATION:

Base Bid	$1,574,355.80

TOTAL ESTIMATED AWARD: $1,574,355.80
TIME FOR COMPLETION: 108 Consecutive Work Days
50 Consecutive Work Days for Milestone 1
LIQUIDATED DAMAGES: $700.00/Consecutive Work Day
$600.00/Consecutive Work Day (Milestone 1)

Scope of Work

UPPER VALLEY DRAINAGE IMPROVEMENTS PH. II (CHARL ANN-OCOTILLO)

Solicitation No. 2008-197

BASE BID

Drainage ditch lining, slope stabilization, drainage improvements and selective demolition are proposed for a segment of the Charl Ann Ditch, White Spur Drain and the Crossroads Pond (Charl Ann Pond). Construction Improvements under this contract include excavation; installation of concrete channel liner, drainage structures, concrete drainage swale, standard and garden rockwalls, rip-rap; selective demolition; removal of asphaltic pavement, concrete curbing, concrete structure (White Spur Drain), rip-rap lining; removal of dense vegetation within ditch and drain; and the removal, relocation and/or adjustment of fencing and guard rail/dead end sign. Proposed improvements include clearing and grubbing; installation of new 6" thick concrete liner of the White Spur Drain from Doniphan Drive (SH-20) to the Montoya Main Lateral and the Charl Ann Ditch from just north of McClintock Drive to Country Club Road; the cut to fill of 2,350 CY of excavated material; the export of 2,584 CY of excess material; import of 806 CY of fill material; installation of 160 LF of 12' x 4' pre-cast reinforced concrete box culvert at Country Club Road; installation of 105 CY of 12" loose rock rip-rap; installation of 846 SY of 6" thick reinforced concrete drainage swale and installation of the associated headwall structure and curbing adjacent to Charl Ann Street; installation of 390 SY of 2" HMAC/6" Base Course (Charl Ann Street) and 1,810 SY of 3" HMAC/8" Base Course (Country Club Road); 2,200 SY of 8" scarified moisture conditioned and compacted subgrade; restoration of pavement striping; installation of 700 LF of traffic communication copper cable; installation of 40 LF of 2" diameter PVC traffic communication conduit; installation of concrete curbing; installation of 180 SY of 5" thick reinforced concrete rip-rap slope protection; installation of 25 PR of 12" mortared rock rip-rap; installation of headwalls and wingwalls at outlet and inlet structures for Charl Ann Ditch, Crossroads Pond and White Spur Drain; installation of wingwall inlet and outlet structures for drainage at the railroad crossing just north of McClintock Drive; installation of 230 LF of 10' x 4' cast-in-place reinforced concrete box culvert; installation of 20 LF of 5' x 3' pre-cast reinforced concrete box culvert; installation of 238 LF of 24" diameter RCP bleeder line, 8 LF of 12" diameter RCP pipe, one 12" flap gate, standard and garden type rockwalls; and 120 LF of 7' high chainlink fencing with two 18' wide vehicular gates.

The water work will include the installation of 60 LF of 12" C-900 PVC, installation of 40 LF of 24" diameter steel casing, fittings, and all necessary associated appurtenances for the complete main or structure, including 60 LF of Trench Safety System. The sanitary sewer work consists of existing manhole adjustments complete to final grade and/or watertight manhole fittings were indicated.

The Base Bid shall also include the cleaning of the existing box culvert and railroad trestle drainage crossing at the White Spur Drain and the Charl Ann Ditch and the removal and replacement of the concrete protection cap/straddle over the existing sewer line crossing the White Spur Drain. Base Bid shall also include traffic control measures, stormwater pollution prevention measures such as stabilized construction exits, sand filled socks, sediment control fencing, and dewatering during construction operations. The dewatering operations will include, but will not be limited to, labor, equipment, materials, and all associated appurtenances and for performing all operations in connection with furnishing, installing, operating and maintaining the dewatering system until the work in the area is completed and accepted. The scope shall include videotaping before and after construction of improvements.

The project will be accomplished as shown below or as approved by the City of El Paso Engineering Department. All work shall begin at Notice to Proceed, and must be completed within the indicated time frame.

- A single Notice to Proceed shall be issued for the entire project and liquidated damages shall apply at the end of the project duration.

Prior to commencement of any work, contractor should submit and obtain approval from El Paso Engineering Department for the Sequence of Construction, Schedule of Work, Traffic Control Plan, and Haul/Waste Route to an approved disposal site. Contractor shall provide written approved documentation from the owner or operator of the waste site.

The description of this scope of work, as shown above, is only a general overview of this project. Contractor shall refer to the project plans and specifications for further information.

This is a Unit Price Project.
