TO: Municipal Clerk

FROM: Byron E. Johnson, C.P.M.
Director of Purchasing - X4313

THRU: Rachel Johnson
Clerk Typist II, X4162

Please place the following item on the **REGULAR** agenda for the Council Meeting of **June 28, 2005**.

RECOMMENDATION:

Approve Change Order No. Twelve to J.A.R. Concrete, Inc., for Contract No. 2003-199, EPIA Fixed Base Operator Ramp & NASA Apron Reconstruction Project. The amount of this change order represents a CREDIT (to the City of El Paso) of Five Hundred Sixty Three Thousand, Four Hundred Thirty Six Dollars and Eighty Three Cents. ($563,436.83) against the amount bid by J.A.R. Concrete, Inc. for the Scope of Work defined by specification books #1 and #2, the project drawings, amendments and change orders. The amount of this credit is awarded as per recommendations from the Departments of El Paso International Airport, the Project Manager, Paragon Project Resources, Inc. and Engineering. It is requested that the City Manager be authorized to sign the requested (credit) change order against the final adjusted contract amount and be authorized to execute budget transfers for these changes as necessary.

RE: **Project:** EPIA FBO Ramp & NASA Apron
Bid No: 2003-199

Change Order No: 12 Contract Line Items Closeout & Added Work on Barricades and Finish Grade

Please Indicate Type: **Construction** ☒ **Scope** ☐

Please Indicate Action to PO: **Increase** ☐ **Decrease** ☒ **No Change** ☐

Change in Contract Time: **0 Days**

Change Order Amount: **($563,436.83)**

Unforeseen Condition:	$ 45,500.00
Value Engineering:	$(608,936.83)
Error/Omission:	—
User Request:	—
Total	**($563,436.83)**

Justification: Item 1: Accept Exhibit A: Line Item Close-Out (Attached) as the final reconciliation of quantities installed. Net Credit of ($608,936.83)

Item 2: Provide for additional barricades used during construction and provide for added consideration to complete the finish grading on the subgrade. Cost of $45,500.00

This final change order request of ($563,436.83) represents full and final settlement of all work and changes completed by the contractor and results in a total contract value of $4,869,903.10.

Attachments:
Problem / Solution Rationalization
Exhibit A: Line Item Close-Out
Paragon Final Installed Quantities Spreadsheets
Proposal: JAR Concrete, Inc.
Estimate on Barricade Costs
Estimate on Added Finish Grade Effort

REVISED REQUEST FOR CHANGE NO. 12

Project Name : EPIA FBO Ramp and NASA Apron
Contractor : JAR Concrete, Inc.
Bid No : 2003-199

DESCRIPTION OF CHANGE: Item 1: This action provides for accepting Exhibit A: Line Item Close-Out (Attached) as the final reconciliation of quantities installed and changes made and approved. (Net credit of -$608,936.83)

Item 2: Compensate Contractor for providing additional barricades during construction. Compensate Contractor for finish grading effort provided on subgrade and not covered by Unit Prices. (Cost of $45,500)

The Final Contract Amount of $4,869,903.10 represents full and final settlement of all work and changes completed by the contractor and results in a decrease in the Contract Value of ($563,436.83).

PROBLEM: Item 1: The completion of the Contract Work requires reconciliation of the quantities installed to finalize the contract price and provide for contract close-out.

Item 2: The Contract provided for installing barricades as shown on the drawings at four locations for the duration of the project. Differing site conditions, namely utilities and other safety considerations, required the barricades to be relocated and a "shoe-fly" bordered by barricades be installed requiring added effort and barricades be provided.
The completion of the excavation at the FBO Ramp showed the quantities were some 25% lower than anticipated, i.e. depth removed was not as deep as estimated but surface areas remain the same. This resulted in the contractor not recovery all of the effort it provided on finish grading that it anticipated if the quantities had been closer to those in the contract.

SOLUTION: Item 1: Finalizing the quantity of all the work installed and accept Exhibit A as the final contract price. Net credit of ($608,936.83). Value Engineering

Item 2: Provide consideration for additional barricades used during construction and the added grading on the subgrade. Cost of $45,500.00. Unforeseen Condition

NET CREDIT OF: ($563,436.83)

Attention: Joe A. Rosales Jr. - President

Re: EPIA Fixed Base Operators Ramp NASA Apron
Bid No. 2003-199
Agreement on Final Change Order and Outstanding Issues

Dear Mr. Rosales

Attached is a Draft of the Change Order I will recommend to the Owner which reflects the agreement of the quantities and for the extra effort provided on barricades and sub-grade preparation. I need your initial concurrence on this to proceed with this recommendation.

As stated, this is a draft that my change in wording but not in concept. You will get the final version for your signature when I have received concurrence from the Engineer and some of the City Staff. The agreement reflects the amount of $45,500 for the barricades (~$6,300) and the subgrade prep (~$39,200), amounts derived from estimates prepared by us.

Your quick response would be greatly appreciated and allow me to proceed with the process of getting the change order process.

Sincerely,

PARAGON PROJECT RESOURCES, INC.

Manuel Rosas
Project Manager

RE: EPIA Fixed Base Operators Ramp & NASA Apron. Final Change Order for Contract Closeout.

Attn: Rick Conner
City Engineer

Gentlemen:

We are requesting a change order in the amount of $151,347.00

The basis of our request is to recover direct job costs (field overhead) and main office overhead which was lost to us due to gross overestimating of contract quantities by the engineering firm who designed the plans and prepared the unit price proposal form. Additionally, dirt work and barricade changes are a part of the request.

Direct job costs such as our costs for a superintendent, jobsite offices, performance bond, construction staking, water, toilets, temporary fence, etc., amounted to 8% of our construction costs.

Main office overhead such as our costs for rent (mortgage), telephone system, computer system & software, utilities, etc., and all office personnel also amounts to 8% for all work under contract.

These two overhead items amounting to 16% are spread over the entire unit cost proposal prorated accordingly. Since the quantities of work actually required to complete the work were so grossly overestimated on the proposal form our final adjusted contract price was approximately $600,000.00 less than our original contract sum.

Obviously, we lost 16% of $600,000.00, or approximately $96,000.00 because of these actions beyond our control.

Generally speaking, unit price proposals vary from actual quantities used by small amounts; but, this variance has caused us serious damage. For example:

Proposal Item	Est. Qty	Act. Qty	$ Change
P-152-7.1	122,000 CY	91,434 CY	-82,528
P-401-1	61,250 T	54,801 T	-180,563
P-401-2	3,982 T	2,768 T	-200,323
L-108-5.3	6,000 LF	0	-30,600
L-821-5.1	1 LS	0	-20,400

THE ASSOCIATED GENERAL CONTRACTORS OF AMERICA

Additionally, bid item P-152-7.1 estimated quantity was 122,000 CY. Our unit price for this bid item, $2.70, is made up of item 1 of $1.38 per CY to excavate and remove 122,000 CY and item 2 of $1.11 per SY for subgrade preparation of 144,996 SY.

Item 2 converts to $1.32 per CY of this bid item. By adjusting this bid item to 91,434 CY of actual quantity of work you reduced this item by (122,000 - 91,434) $ 2.70= $82,528. Only $1.38 not $2.70 per CY should have been deducted because we prepared all of the sub grade for the total area as needed for the base and paving, 144,996 SY.

Therefore we are asking you to allow us an additional sum of $1.32 (122,000 - 91,434) = $40,347.00

Also, contrary to the construction phasing and barricade plan which showed taxiway U and taxiway V to be closed off we were directed to add a serious amount of barricades along taxiway U & V and the NASA Apron area, including maintenance of same.

We estimate an additional loss to us of approximately $15,000.00

We never previously asked for a change order for this work because our original traffic control pricing was part of our general conditions and prorated through all of the bid items.

Aside from our bid proposal saving approximately $1,000,000 from the second bidder, The City of El Paso has saved an additional $600,000 from our original proposal sum. Surely you can agree that $151,347.00 in the form of a change order is due to J.A.R. Concrete.

Very truly yours,

Edward R. Babenco
Administrator

C.C. Manuel Rosas
