PLANNING DIVISION**

MEMORANDUM

DATE: July 23, 2008
TO: The Honorable Mayor and City Council
Joyce Wilson, City Manager
FROM: Mirian Spencer, Planner
SUBJECT: ZON08-00048

The City Plan Commission (CPC), on July 17, 2008 voted (7 to 0) to recommend **APPROVAL** of the special permit for planned residential development and imposed a condition in agreement with the recommendation from staff and the Development Coordinating Committee. The condition prohibits the property from seeking additional reductions in setbacks through the Zoning Board of Adjustment of the City of El Paso.

The property owners are requesting the special permit to allow for three residential duplex lots with reduced lot depths and reduced setbacks. The applicants are proposing a lot depth of 75.76' for lot one. The applicants are also proposing the following setbacks:

Lot 1: 10' front yard, 5' rear yard, 10' side yard setbacks.

Lots 2 and 3: 20' Front yard, 15' rear yard, and 5' side yard setbacks.

The applicants are proposing three residential duplexes on the 0.5464 acre parcel of vacant land. Access to the lots is proposed vial De Leon Drive. The applicants have also submitted a Rezoning application to change the zoning from C-3 (Commercial) to R-5 (Residential) (ZON08-00014).

The proposed planned residential development is compatible with the 2025 Projected General Land Use Map for the Northwest Planning area which designates the property for mixed-use development. The surrounding area is composed of single-family and multi-family residential, mobile home and commercial development.

The CPC found that this special permit request is in conformance with The Plan for El Paso; and the proposed use is in conformance with the Year 2025 Projected General Land Use Map. The CPC also determined that this rezoning protects the best interest, health, safety, and welfare of the public in general; and that the proposed use is compatible with adjacent land uses.

There was **ONE CALL IN OPPOSITION** to this request. The nature of the opposition was due to the area being heavily affected by Storm 2006. The caller was concerned that the request would add additional residences to an area that was damaged by the flooding.

CITY CLERK DEPT.

General Information:

The applicant is requesting a special permit for planned residential development in order to permit reduced lot depths and reduced setbacks. The property is currently zoned C-3 (Commercial), but an application to change the zoning from C-3 (Commercial) to R-5 (Residential) is also being presented to CPC (ZON08-00014). The applicants are proposing three residential duplex lots. The property is 0.5464 acres in size and is vacant. The property meets the minimum site area for residential duplexes within the R-5 (Residential) zoning district. Access is proposed via **De Leon Drive** through a 36' common access driveway. There are no zoning conditions imposed on the property. The applicants are proposing a lot depth of 75.76' for the first lot which is a 15% reduction in lot depth from 90' required. The applicants are also proposing the following setbacks:

- Lot 1: 10' Front Yard Setback, 5' Rear Yard Setback, 10' Side Yard Setbacks.
- Lots 2 and 3: 20' Front Yard Setback, 15' Rear Yard Setback, 5' Side Yard Setbacks.

The R-5 density and dimensional standards for R-5 district, Two-Family dwelling are as follows: Lot width 50', depth 90' and set backs: Front: a minimum of 10' with a 20' driveway, Rear: a minimum of 10' cumulative 45, Side: 5' and Side & Side Street: 10'.

Staff Recommendation:

The Development Coordinating Committee (DCC) recommends **APPROVAL** of the special permit request with the following condition:

- That no additional requests for reductions in setbacks be submitted for approval to the Zoning Board of Adjustment of the City of El Paso.

The recommendation is based on the following:

The Plan for El Paso City-Wide Land Use Goals recommend that El Paso "provide a wide range of housing types that respond to the needs of all economic segments of the community."

The Year 2025 Projected General Land Use Map for the **Northwest** Planning Area designates this property for **Mixed-Use** land uses.

R-5 (Residential) zoning permits Planned Residential Development by special permit and is **compatible** with adjacent development to include the commercial land uses to the North and East of the property and the residential land uses to the South and West of the property.

Findings:

The Commission must determine the following:

1. Will the special permit for planned residential development protect the best interest, health, safety, and welfare of the public in general?
2. Will residential duplex development be compatible with adjacent land uses?
3. What is the relation of the proposed change to the city's Comprehensive Plan?
4. What effect will the special permit have upon the natural environment social and economic conditions and property values in the vicinity and in the City as a whole?

Development Services Department - Building Permits and Inspections Division:

Zoning Review: Two-family dwellings permitted in R-5 (Residential) zoning district. Meets lot size, and width requirements for two-family dwelling units. Shall need to maintain cumulative front and rear yard setbacks.

Landscape Review: No comments received
