BACKGROUND / DISCUSSION:

The International Code Council has published the 2009 version of the International Code Family and local public input and industry input has been taken to assure that the current version of the codes are amended and adopted as appropriate for the City Of El Paso. These codes are normally revised on a three year cycle, and adoption is key to stay abreast of modern developments in building safety and to be consistent with adoption by the State of Texas of certain codes.

An additional amendment was made after introduction of the ordinance to item b, adding language in 18.02.103.2.3 (Design Professional) defining the sections in the Texas Occupations Code, sections 1001 (Engineers) and 1051 (Architects) that are applicable and govern these professions and adding language in 18.02.109.2.5 (Plan Review Options Available to the Applicant) regarding the fee reductions in place for the Tax Increment Financing Zone No. 5 and any neighborhood empowerment zone, which may be designated by resolution of the City Council.

PRIOR COUNCIL ACTION:

The City Council on July 20, 2010 heard the findings of the Planning and Development Legislative Review Committee, and directed staff to go forward with the 2009 International Building Codes, perform additional industry outreach and to bring the codes back for Council consideration in 90 days.
