Mr. Jeff Belles
CITY OF EL PASO
DEPARTMENT OF SOLID WASTE

Dear Jeff:

Please consider this letter written notification that **CARON COMPACTOR COMPANY** is the patent holder and **sole source** manufacturer and distributor for landfill compaction wheels with 7" tall, **MAX[®] II** teeth with Pin-On[®] type replaceable caps.

CARON wheels on your Caterpillar 836G (s/n BRL0483) with Pin-On teeth feature our unique combination of horizontal "traction" teeth and vertical "contour" teeth arranged in 5 alternating rows of 9 teeth each. These teeth and pattern have been proven to provide the best possible combination of machine traction and the demolition effect that produces maximum compaction density. Each replaceable cap is secured to a protected, reusable base by a double pin, coiled spring and dowel retainer system. Our Pin-On replaceable caps are heat treated to a higher degree of hardness than one-piece weld-on tooth or blade designs to provide the longest possible wear life and replacement without welding or extended machine downtime.

If you have any questions regarding our products or their availability, please contact our office toll free.

Best Regards,
