

Transportation Improvement Program (TIP)

Project Review

TIP Project Review

Reviewed all projects included in new TIP

Evaluated based on:

- Project status
- Type of project
- Potential for re-visioning based on ITE design standards and
- Multi-modal connections

TIP Project Review

Recommendations for Projects sponsored by other MPO members:

- Support project or
- Work with sponsoring agency to impact design elements to enhance project's multi-modal capabilities and incorporate ITE standards

Requested Council Action

Direct City Manager to reprogram City-sponsored TIP projects to implement street improvement projects resulting from identification of corridors and areas to be developed and retrofitted with ITE design standards.

Pending TIP Review/Update Process

MPO through its TPAC will prepare a TIP Project Status Report that will examine current status of all approved projects. Report will be reported to the TPB at its first meeting in 2011

The present Transportation Improvement Plan (TIP) which is part of the STIP is scheduled to be approved by the FHWA before the end of the 2010 which will allow for project review next calendar year
