Re: Region 19 Contract # 10-6562. Work Uniforms, Shoes and Related

The El Paso Fire Department recommends utilizing the Region 19 contracted vendors to maintain an adequate spending threshold of \$ 208,000 payable to Region 19 contracted vendors for FY 2012. The following are factors used to evaluate the use of this procurement program as the best approach.

1. Is there an urgent need for the product/service? In other words is time of the essence?

It is critical that the EPFD has the ability to utilize Region 19 contracted vendors to adequately supply necessary uniform items. Time is critical in being able to maintain continuity in supply replenishment.

2. Does the purchase through the program promote the standardization of equipment?

The Region 19 vendors have a proven track record of maintaining a consistent level of quality on all uniform items and meeting all the documented specifications.

3. Does the purchase through the program support local business? If not is there a comparable product/service available locally?

Yes, not only are the Region 19 vendors but they also sub-contract local embroidery vendors to support their business.

4. Do the available vendors have prior work experience and/or familiarity with the City Of El Paso?

The Region 19 vendors have had the contract for the past 3 years.

5. Is the pricing reasonable as compared to other similar products/work performed for the City Of El Paso in the past or as quoted from other companies?

The pricing is reasonable as compared to other products/services offered by competitive vendors. Price reasonableness has been established because the cooperative purchasing agency used a competitive bidding process in the awarding of the contract. The participation by the City of El Paso in the Region 19 Cooperative Purchasing Program was approved by Mayor and City Council on March 4, 2008.
