Item 3. Discussion and action regarding proposed State Legislative agenda.

Ms. Moreno began with the staff recommendations and recommendations by the various Legislative Review Committees for changes and additions to the state agenda.

Committee Member O'Rourke requested that additional language be added to the transit section to clarify that funding be given specifically for transit projects as well as ensure there is more local control.

Chairman Cook requested that the recommendation for vehicle registration fees be included in an overall statement aimed at enacting a local option transportation tax with voter approval.

Committee Member Robinson suggested that the request for funding for a visitors center at Franklin Mountain State Park be included for Council consideration. Committee Member O'Rourke requested that items pertaining to the acquisition of land for purposes of creating new trails be prioritized at the top.

Discussion arose around "buy back" programs for renewable energy. Ms. Firth suggested that language be changed to request that legislation be sought in order to require the State to make the change.

Committee Member Robinson discussed a recent law that allowed for tax relief for veterans and asked that legislation be considered to assist cities who would lose revenue as a result of the new legislation. Ms. Firth recommended that we consider supporting an initiative by the Texas Municipal League (TML) to allow for tax exemptions to be granted by municipalities at a specified dollar amount in lieu of a percentage of taxable value.

In discussion about the Government Land Office, Committee Member O'Rourke requested that the item be elevated to a higher priority. Ms. Firth mentioned that the City could seek legislation to require notice and coordination with municipalities by the Government Land Office prior to leasing or selling land and compliance with local zoning and development standards. She also mentioned that she would discuss this with TML.

All changes were accepted. See last page of these set of minutes (page #3) for final motion.

Committee Members O'Rourke and Robinson requested additional information about the request from the El Paso Police Department for Data System Interoperability and E-ticket System.

Ms. Firth recommended that additional wording be added to the public safety grant section to take into consideration growth due to military installations, cost saving measures taken, and location on the international border.

Committee Member O'Rourke suggested that the area focused on high speed rail be revisited to look at shorter, more realistic projects. He mentioned that Representative Ortega might have information that he would want to share in a future Council meeting.

During discussion on the violence in Mexico, Chairman Cook suggested that the item pertaining to Mexico being prioritized as a foreign policy priority be moved to the top.
