Cooperative Contracts:

Utilization Strategy

Presented by
City of El Paso – Financial Services
Purchasing Division
Objective

Outline the City of El Paso’s strategy and consideration for using cooperative contracts.
By the end of the presentation you will be able to do the following:

- Define a cooperative contract and purchase alliance;
- Identify the key considerations for using cooperative contracts;
- Identify the benefits and savings throughout the supply chain associated with using cooperative contracts;
- Identify key cooperative contracts being used by the City of El Paso; and
- Identify the applicable award thresholds for cooperative contracts
Defining Cooperative Contracts

A cooperative contract is a contract that can be shared with other governmental and non-profit organizations through “piggy back clauses”, inter-local agreement and/or other enabling legislation.

Typical cooperative contracts are facilitate by a lead entity (Department of Information Resources “DIR”) or purchasing consortium “purchasing alliance” to (i) leverage aggregate purchasing power of state and/or public agencies nationwide, (ii) grant access to a broad line of competitively solicited contracts with best in class suppliers and (iii) reduce administrative cost of routine purchases.

Key Consideration:

- Co-operative contracts have been competitively bid;
- A determination of price reasonableness has been performed;
- Procurements comply with an auditable procurement practice;
- Diverse brands, services and solutions available for participation; and
- Local, regional and national companies on cooperative contracts
KEY BENEFITS AND SAVINGS

Key Benefits

- Ability to leverage volume power of public agencies and non-profits to obtain best overall supplier pricing;
- Third party audits of purchasing processes; and
- Reduces the acquisition cycle by roughly 30-45 days

Savings (cost avoidance) Across the Supply Chain

- Leverage volume purchasing power of routine goods, services and solutions (cost saving).
- Staff time associated with in-depth development of specifications and/or scope of work (cost avoidance);
- Staff time associated with facilitating voluminous number of items that have already been sourced (cost avoidance); and
- Legal time associated with development of contracts. Contracts are developed by lead entity or alliance (cost avoidance)

- List does not include Inter-local agreements
City of El Paso
Financial Services Department - Purchasing Division
Department Procurement Process Utilizing the Purchasing Program

Review the Purchasing Program (i.e., Programs) for availability of product, equipment, services (i.e., Product).

- If the Product is available through the Program?
  - Yes
  - No
  - Enter Decision Making Process of Utilizing Procurement Programs

- Is the Product under $50,000?
  - Yes
  - Obtain quote for available Purchasing Program or three quotes from available vendors
  - Purchase Product from lowest quote
  - End

- No
  - No
  - Develop bid specifications for Product
  - Follow the formal bid process outlined in the Purchasing Manual
  - End

Decision Factors for Utilizing Program:
- Is time of the essence for need of equipment?
- Does the purchase through the Program promote the standardization of current equipment?
- Does the purchase through the Program support Local business? If no, how? If not, is there a comparable Product available locally?
- Does the available vendor have prior work experience and/or familiarity with the City?

*If items are less than $50,000 AND department is utilizing the Purchasing Program, only one quote is needed.*
